### Help Kidneys

It is highly important that kidneys be kept in good condition. If they become weak, the whole system suffers. The kidneys are the filters of the body, and if they fail, the blood becomes impure. This leads to various ailments, including backache, headache, and general weakness. To keep the kidneys healthy, it is essential to drink plenty of water, eat a balanced diet, and avoid excessive alcohol and tobacco. Regular exercise and a good night's sleep also contribute to kidney health.

Works on the bladder similar to castor oil on the bowels. You are bound to feel better after this flushing and you get your regular sleep. Get buchu, juniper oil, etc., in little green tablets called Bukets. In four days if not pleased, your druggist will refund your 25c.—Brundage Drug Co.

Like little girls, Mamie, age seven, began talking with her mother about marriage. "When I grow up," she asked, "will I have a husband like papa?"

"And if I don't get married, will I be an old maid like Aunt Annie?"

"Very likely, my dear."

"Gee, Mom, I am in a fix."

Willie Tibbetts, not yet in his teens, cut his finger so badly the other afternoon that his mother thought it best to take him to the hospital in town. As Willie and his mother and his aunt climbed the hospital steps he protested, and screams that brought six hospital attendants running, that he didn't want to have a baby—he'd rather have puppies.

Keen Competition

California: "Now in my state, we can grow a tree that size in about a year. How long did it take you to grow that one?"

Florida: "Can't say for sure, but it wasn't there yesterday."

First Little Girl: "Why did your mother spank you?"

Second Little Girl (professor's daughter): "Because she is too untutored, ignorant and archaic in her ideas to devise a more modern reformatory method based on the superior intelligence of the younger generation."

Sweet Miss Perkins, teacher in the Hazeldell district, was trying to make clear the subject of addition to a class of young hopefuls.

"Now, John," she said, "if I lay two eggs here and five there, how many eggs will I have?"

"I don't believe you can," the teacher answered John.

Is This the Reason?

Did you ever hear the one about the little dog on Noah's Ark who found a small leak in the hull of the boat, and the faithful little fellow stuck his nose in the hole to keep the intruding water from making it bigger and stuck to the job until Mrs. Noah happened along and relieved him by placing her foot over the hole? This probably accounts

for the fact that a dog's nose is always cold. Mrs. Noah kept her foot over the hole until the faithful dog summoned old Noah, who promptly relieved Mrs. Noah while she located the ship's carpenter, and that probably accounts for the fact that a women's feet are always cold. Old Noah sat down on the hole and kept the water from rushing in until the carpenter arrived and made the necessary repairs—and that is probably why a man always stands with his back to the fireplace.—Bristol New Era.

New Pistol Law

Under a section of the new crime laws, which went into effect on Feb. 24th, it is now a felony instead of a misdemeanor for a person over 16 to carry a loaded weapon, or a weapon and its ammunition, on the person, unless the individual has a license.
