which has attracted con-tention during the past cance. This co

electric fence. This consists generially of one strand of barbed wire which, thru a special device, is charged with an electric current from a light socket or battery.

Results indicate that it works with remarkable success. The cost of operation is low, and the reduction in the initial cost of the fence most substantial. The power in the fence is not sufficient to hurt an animal or person."

Leaky Roofs

We know what a nuisance they are for we have had them, and when they are repaired, what a relief it is.

The spring rains will hunt out the poor spots in the roof and unless you are on your guard what a lot of damage they cause to wallpaper and plaster.

A can of Roof Cement and a coat of Roof Paint will repair those places if they are not too bad. If they are, a new roof is needed.

You will find us able to supply your needs in repair material or new roofing.
