OUR KEYNOTE:

"If There is Not a Way, Cut a Way"

Entered as second-class mail matter, under act of Congress, at the Postoffice at Andover, New York. Subscription Rates

EVERY automobile owner knows that the most it in tune, with all cylinders hitting and timed perfectwe fail to make the grade.

Keeping one's self in tune is a matter, largely, of eliminating discords in one's mental and spiritual being. The business man who considers it his perogative and possibly his duty to berate roundly those who are under his authority, is laying up for himself a reaction on which he has not counted. Every explosion of wrath has its counteraction in a man's inner organism. He suffers, altho in a different way, quite as much as his victims.

There is a close affinity between one's mental state and and one's physical state. Getting all "fussed up" is an indulgence for which one must pay a stiff price. as it is the fault of their parents. Emotion of every sort exacts its penalty. Anger, sorrow, fear, envy, sets one jangling inside, with consequent loss of efficiency and poise. To get out of tune; is easy unless one keeps one's thoughts under control. The anger that is bottled up; the sorrow that is hidden; the fear that haunts the mind; the envy that gnaws at the heart—these destroy one's harmony and poise quite as much as the they were expressed.

Unity in the Community

EVERYONE has his own mind and our laws give him L the right to free thought and speech. This freedom, however, should not be confused with license and lead us into channels of thinking and speaking that develop friction and a population divided against itself. In union there is strength. In discord, we face

nothing but mediocrity and disaster. We are a community unto ourselves, yet we should live unto himself. As a community we have an obligation to other communities, to our state and nation.

sun shines. our business and social life.

No nation can live entirely independent of other nations and continue to be prosperous and contented. right of everybody to speak freely on any subject. Neither can any state, city, town, individuals or group other American principle is that everybody should a of individuals.

our common interests.

A man in a neighboring state has never seen a thing else only tends to encourage its advocates. moving picture. Opinions will differ as to how much he has missed.
