office attraction. While this may have been good box-lagainst such tinkering with traditional methods. tract from the fact that he brought many happy moments to thousands of children, many of whom had never had many bright memories in life.

If you must be critical, you should make yourself the first target.

There is always room at the bottom, and any well digger will verify this statement.

Good Health

"CTAY alive" has been used as a slogan for safe driving and walking. It is a mighty good one if the advice is heeded and it also might be aptly applied to the general health of any individual. Health commissioners are always advocating per-

iodic health examinations, and they declare that life with the Office of Information of the gany county spelling c. may be prolonged for many by taking notice of sig- New York State Colleges of Agrician the finals held at Friendship cener will the two clink together nals without, and for an even greater number by giv-culture and Home Economics ance of undergoing examination by competent physi- farm and home.
