## Mother's Day Observance

A tribute to motherhood Sunday, May 10th. Various ern conveniences that make life a joy. programs in all communities will emphasize the important place which she holds in the family life. Public ing time now. They don't believe in progress. They Professor B. B. Robb of the de-daughter of Major and Mrs. Willis inations, or any other information, tribute will be paid to her worth and central position want to stand still. in the institution of the family, which is still the basis of our social system.

home life revolves about the mother. Usually she is the one who gives tone and direction to its activities. ancestor's toil, had controlled the destiny of this com- surface where the new concrete is of Belmont, a daughter, Mrs. Ar- with a so-called civil service school Father, to be sure, contributes the part, but after all, munity a century ago, where would we be now? it is the mother who creates the atmosphere that gives charm and cheer to the home.

tion is a fine tribute to pay to her. Millions of moth-tion to leave the world a better place when they de-lan area about the size of one cow ers will be reminded of the respect and love of their part, than it was when they entered it. husbands, and the affection of their children on Mother's Day. Many thousands of sons and daughters who of every precious moment. have forgotten to write home for months, will send an epistle that will cheer and comfort their mothers. Others who are in close contact with their mothers will. gladden hearts with tokens of flowers, boxes of candy 1 and other appropriate gifts.

But beautiful as the sentiment of Mother's Day! may be, why single out only one day or one week the year for the purpose of honoring and remembering her, expressing affection with a gift? Why not sun's rays grow warm. speak a helpful and cheering word whenever opportunity presents itself, year in and out? A wee bit recognition of this kind, coming in the weeks in which there is no Mother's Day observance, will accomplish much more in making her happy than will the card or token that she receives because Mother's Day reminded a son or daughter of his or her negligence and forget-

Mother's Day this year can have a very special significance for these who have been forgetful and gars, but in the majority of instances they are people ple. neglectful. It can serve as a good starting point for highly respected in their home communities, who, with "The plant thrives in a variety of) a continuous appreciation of a mother's love and aftereless abandon, have cut loose for the summer fection. If the centiment of the celebration this year enjoy themselves to their fill arouses in all of us a keener desire to show an appreciation every day of the year, the observance will have t created a fine attitude toward our mothers, which will, make their lives happier and more cheerful for the and this estimate is said to be conservative. manifestations of love which we are showing daily. The spontaneous words of appreciation and love that are spoken when no special occasion prompts them are much more effective and gracious than those which are conventionally uttered on Mother's Day.

All who participate in the large number of programs that have been arranged this year will receive inspiration for a better and more constant love for man has our sympathy—and also our money, their mothers. The purpose of the day will be richly served if hundreds return to their homes keenly alert to fill the hearts of their mothers with happiness. mother cares more for a cheery greeting and a kind word of appreciation that habitually comes from her sons and daughters than she does for costly gifts occa- but they don't always go together. sionally given.

The safest way to take a mad bull by the horns else even after they get there.

is to kill him first.

little, but it doesn't pause to yawn.

#### Counting Time

TET us suppose that we as a community stop count-L ing time; stop dead in our tracks for the next cenltury, for instance, and play Rip Van Winkle.

And while in a speculative mood, turn back to the mention the name of this paper you Humphrey Center, and Kenneth Fullynning of the town, and let up suppose that beginning of the town, and let us suppose that our an- will receive a direct reply to your ler of Belmont. -- cestors had not counted time-had stood still.
