Congress, at the Postoffice at Andover, New York.

The Old-Fashioned Swim

IF ALL the safeguards for a good swim, advised by when taken in time. modern authority were followed to the letter, comthat a lake or the seashore were available.

ever has a lure that can't be resisted. While it is true drownings do not account for all prescribed.

Aside from the water's purity, there are other

simple rules for safe and sane swimming that every boy should know and understand, else he may pay with will make 5,000 exposures a second, which is almost as the destructive germs and fungi, his life for his folly. No one should go in the water when overheated because of the danger of cramps. Neither should one swim immediately after eating; an interval of at least!

two hours should elapse. when the swimmer remains in the water until over beneficial effects of a swim can best be felt by not remaining in the water longer than 30 minutes.

ed as a dangerous practice that may lead to serious Philippines. complications. It is much better to enter the water several times daily, taking a brisk rub after each swim! and changing clothes.

Labels For People

citizen will be required to carry a card bearing his uous growth. But the next year the clover disappear. before July 1, it will go to seed to store clothing and other woolens. bulletin E-347 discusses the problem photograph, fingerprints, hame, address, occupation and edother'items of information of interest to the police.

We have laws against false labels on money, food off the pollen.

and drugs; laws against false advertising of any kind | The next year saw a cargo of bumblebees carried way guaranteed by law to be genuine. The sole ex-lislands as in his native Virginia or Nebraska. ception is the stranger.

It can be said for the plan that no honest man | Every time an airplane does a nose dive or a tailwill object to it except on the basis of inconvenience. spin, or a mine blows up, we are reminded of what a The roving crook, the motor bandit, the confidence man fine thing it is to have the earth at our feet. and every other unworthy man who picks a living outside the law will condemn the identification card as an unwarranted assault on personal liberty. But the plan miles it covers, but by the number of square people might drive more crooks back to honesty than all the who live in it. prisons in the country. At least, it would be well worth

one of the things that troubles the world.

Citizens Military Training

THERE age few youngsters whose chests do not swell with pride when they are privileged to view ranks of present or former service units parading by. They envy the right of these defenders of their country wear the uniform that is symbolic of the service they are performing and of physical and mental fitness to perform that service.
