# YOUR ASSURANCE

OF LONG SERVICE AT LOW COST.

HE SILENCE of Electroiux is a definite advantage in itself. But it is also far more than that! It is constant proof of the basically different method of Electrolux operation. Electrolux has no machinery. A finy gas burner takes the place of all moving parts...circulates the refrigerant

which is cooled by ordinary air. It is this complete absence of machinery which makes possible the lasting efficiency obtainable only in Electrolux refrigerators. When you purchase an automatic refrigerator it makes very little difference to you what the operating cost may be for the first month or two. It makes a great deal of difference to you what the operating cost may be month after month for 5 years. 10 years, or longer. Every other automatic refrigerator loses efficiency as its machinery wears. Electrolux has no machinery to wear and its low operating cost remains permanently low throughout its long life.

Many people ask how long an Electrotux will tast? We have to answer that we do not know. The first Electrolux

MEDELSCHEISTERS.

are specating today just as quietly. economically, and satisfactorily as th day they were installed, and there is no reason to believe that they will not continue to operate just as well for many more years, so there is no definite answer we can give to the question. It may be that 10 or 20 years

know how long an Electroiux refrigerator will tast. You can be certain of the lowest possible yearly cost only if you purchase Electroiux. Come in now and select the size you need and begin to enjoy the comfort, convenience, and economy of gas refrigeration.
