## Baker's Hardware News

## Kitchen Ranges

Cooking and baking satisfaction assured when your kitchen is furnished with a new style Bungalow range.

There is much to be said in favor of the Bungalow Range—it occupies little space, saves fuel and provides much cooking space on its top.

You will find on any regular sizeable top range.

We have some fine models, full equipped in table-top or standard models, equipped with oven regulators at \$37.50 and up. Improve your meals with a new kitchen range from Baker's.

## Window Ventilators

These new window ventilating devices are adjustable to fit various windows. They will not settle or fall out of the window. Children cannot push them out nor fall out themselves. No dirt, no rain, no draft can get past them—yet they insure fresh air in every room. They lock at any adjustment and release with a slight pressure of the thumb.

Ask for "Reddy-hac Window Ventilators" and note the difference—Price 30c.

## White Shoes

Always need a little touching up after each time they are worn. If very dirty, and a real job is needed get a bottle of Whitmore's Shoe Clean, and you will be pleased with the results.

The germ of a better job is in the job we are doing now.

Just a Switch

With one of those big O'Cedar Oil Mops, and you have taken the dust and tracks from the floor of a large room.

These mops are made from long staple cotton yarn laid just right to carry and spread the oil thinly and evenly with no surplus to muss up the job.

The handles are smooth and well enameled; the socket folds down for pushing the mops under things; the head is creased and perforated to make resaturation easy and the whole outfit in a metal case is yours this week at 98c.

Garbage Cans

This is the kind of weather that produces spoiled foods easily.

Every one should have a good covered garbage can, and help as much as possible to prevent the starting of any disease.

We have a variety of sizes ranging in price from \$1.15 to \$2.75.

Fly Spray

This hot dry weather the cows are bound to shrink in their milk production, but you can help them out a little by spraying them to keep away the flies. Bring your own can as we have it in bulk at 85c per gallon. In five gallon lots 75c per gallon.

The germ of a better job is in the job we are doing now.
