Business Confidence

fear and enlarges the vision of the future.

represented, or he would buy elsewhere.

action. Any act that destroys confidence is a back-lem at hand. ward step. The business man who does not keep his Our great concern is what will happen to this ology department answers: "Your Wm. B. Mosher of Plainfield, N. word is a dangerous element in our social structure, nation in case that Europe becomes embroiled in war plants were attacked by damping-off J., was in Andover last Thursday. man and half brother of Charles If he misrepresents the goods he sells, he damages again. Will we be able to keep out of it this time or fungi that are present in nearly all Mrs. M. J. Brundage and Miss Hawkins of this village, died not alone his own interests, but the future of business, will we be dragged into it again regardless of our best soils. These fungi or molds are also Grace Brundage visited a few days denly at his home in because of its far-reaching evil effect. Like the ripple sure could sway us into another aggressive war. Per-decay in the soil.

be made, but they may also be rectified.

they have a double obligation to their customers and to their fellow business men.

Honesty in business is the first requirement for damage. It's what meets there. busines confidence. That it is being practiced as a general rule by business is revealed by the growing!

Advertising has contributed in large measure to THE most desirable of reputations are the easiest this winter. this condition of affairs. It has placed business on a to lose. It requires years of correct higher plane because through advertising, business men build them up, and but an incautious moment to de-able to go to high school. After pledge themselves to certain policies and practices. Ad- stroy them. vertising has thrown the white light of publicity on business and business has profited by winning greater judged not by what they really are, but by what they the winter course without passing

Teaching Health

but the same teaching must also be carried on in ing impressions are formed. the home and parents have to be entirely in sympathy A sanctimonious countenance is not indicative of November 4th and lasts 12 weeks. with the program before the schools can accomplish a clean heart. It is a cloak under which many dis- "I have sent you a catalog and an energy—you feel younger in body—

Children's habits are formed at home before they become of school age. If they are not required by est heart are all that any person requires. their parents to take baths as frequently as they should to cleanse their teeth and take care of their but the aftermath of character. body properly, no amount of teaching will accomplish

that which is desired. The reason that the real teaching of health starts July or August won't be a laughing matter. in the school is because children are more impressed with the teaching that is given there and are more

apt to follow it as a life-long rule. Only when the parents do not co-operate with the schools is their purpose defeated. It is told that U absolutely apart from parsimony, is pointed once upon time a teacher sent the parents of a particularly unclean child a note asking that he be sent to school clean. The teacher received the following reply: "Willie ain't no rose. Learn him, don't smell

health crusade in the public schools when parents take far the great majority of fires are preventable. this attitude.

Humane Education

THE zeal of those who stress the importance of kind-short of taking life outright. ness to animals may sometimes appear to be a ally behind it a sincere and laudable impulse. While it may be argued that the sympathy and against fire. effort expended on unfortunate animals might better be exerted in behalf of human beings, the fact is that contribute towards reducing these calamitous losses, those who treat horses, cats and dogs with humane and practicing a kind of thrift that is indeed worth consideration are more likely to exhibit a similar atti- while. tude toward their fellowmen.

Work of humane society organizations which op-luse; but not to worse. erate more extensively in larger cities because there is greater need for them there, include the work o finding homes for stray, homeless dogs, cats and oth-after marriage instead of before. er domestic animals of the pet nature, returning stray dogs and cats to their owners and general police work in endeavoring to see that all animals are treated kind-

An important work of such organizations is the humane education of children, many if not most whom have an apparent natural tendency to make life miserable for helpless animals, particularly those animals is merely the result of thoughtlessness

The teaching of kindness to animals should have opportuity to tell his friends about it. a place in the training of every child and it can b taught better by personal example than in any other way. To befriend a stray cat or dog is to teach a les. son in humaneness to all who observe the act. An such lessons are worth while.

The only pipe dreams that count are the ones those who are not too far gone may lead to a conthat the plumber originate.

Times have changed since a man wearing knickers attracted the attention of the crowds,

Easy street is always the hardest of all to find.

Gloomy Outlook for Peace

T is no secret that the politicians of Europe regard war is inevitable. While some nations of the eastern hemisphere are bending every effort toward preserving peace, others are dilligently working toward Germany and Italy are the leaders in Eur-Congress, at the Postoffice at Andover, New York. and a means of building world prestige.
