A close, hard fought game may be fun to watch, but it's really rough on the players. Every man is under an enormous strain and there's al. ways the chance, that, if he isn't in A-1 condition, he may crack and throw away the game. That's why a coach likes to see everyone on the squad drink plenty of milk. There's nothing like milk to get men in perfect condition-give them husky muscles, steely nerves and plenty of reserve energy.
