The Family DOCTOR

COOL DAYS BRING ON SKIN IRRITATIONS

Cooler weather is the signal for the spread of skin diseases. This is because many people neglect proper bathing and are exposed to radical changes of temperature on the sur- face of the body. To rush out into the cold air while perspiring even the least bit will aggravate skin troubles or bring them on. To work- ing men in shops or the indiscreet in farm houses this article will be timely.

Eczema is by far the most com- mon skin disease. It may develop on any part of the human being, whether protected by clothing or not. It is not contagious—and may become a chronic disease if neglect- ed. Its chief symptom is itching or burning. Excessive "scratching" which seems imperative, may arouse moisture, even bleeding. Rarely does eczema scale or peel off. You should consult your physician if you get a persistent skin trouble that you don't understand.

My advice must be general tho correct. Remove every source of irritation if you have eczema. You will not recover with the best medi- cines if you do not. I once com- pelled a lady to cease wearing a fur neckpiece much against her will, but she recovered from a fierce eczema of the neck and shoulders. Even very soft garments may irritate. Therefore, change to less irritating. Use nothing on the skin that irri- tates. A "famous" patent medicine that I know of, does nothing more than relieve the itching—it never cures. Even that is fine—for the charlatan who sells the nostrum.

If, unfortunately, your eczema is all over or universal, you should con- sult a nerve specialist as well. The cause may be found in a deep-seated nerve affection. Local medicines should be soothing in the highest de- gree.

Uncle Ab says he endorses the old Scotch proverb that those who change their minds never go crazy.

"Dairy co-operatives, the largest of farmers' marketing organizations, had an \$80,000,000 increase in busi- ness during the 1935-36 marketing season as compared with 1934-35.

Mike: "Why are they called that?"

Pat: "Because nearly everybody's had them out."

Pocahontas: "Yeah, girls, an' then he tried to pull a fast one. Told me his name was John Smith."

Experience of a Lifetime

A tourist returning from Califor- nia thru the Texas Panhandle got into a conversation with an old set- tler and his son at a filling station. "Looks as tho we might have rain," said the tourist.

"Well, I hope so," replied the na- tive, "not so much for myself as for my boy here. I've seen it rain."
