## Taxes Motorists Pay

U States are paid by motorists. That includes Fed- irreplacable benefits. eral, state and municipal taxes. One dollar out of every As a fisherman he is fair to all fishermen; as a seven that is collected for the expenses of running the hunter he is fair to all hunters; as a frequenter of the ing their herds up to a higher level cess of farming, even tho conditions in general are such that the average of the for the Apollo Belvedere.

registration fees, State and Federal gasoline taxes, Fed-person to know. eral manufacturers' excise taxes, personal property taxes by cities, counties and states, and bridge and tunnel tolls. The total runs to 1,500 million dollars a

Those are all taxes on motor vehicle owners, and do not include income and property taxes on factories producing motor vehicles, parts and tires, garages, dealers, repair shops and companies operating busses, taxi cabs and trucks.

The three most productive sources of tax revenue, the Northwestern Mutual Life reports are, first, gen-by the reader. eral property taxes, second, Federal and state income; taxes, and, third, the taxes on automobile owners, which run to an average of more than \$48 a year on every

If all otheer businesses were taxed at the same rate that automobile service stations pay, the tax income from retail business alone would be more than! 12 billion dollars a year, or more than the total tax revenues now collected from every source, the American Petroleum Institute reports.

It would seem that motorists ought to get perfect; highways, perfectly lighted and perfectly policed, for the money they pay in taxes.

## Economic Law Conflict

(From the Detroit News)

TIOMER MARTIN, president of the United Automobile ed Workers' Union, advises all the members of his organization to refuse to buy meat. He tells them this paratively unaffected by daily change. will bring meat prices down. Edward A. O'Neil, president of the American Farm Bureau Federation, wires because it entails no waste of circulation. This helps I asking Martin: "Is this an invitation for American reduce costs for the consumer. farmers to take similar action against products produced by CIO union labor?"

that striking to put wages-and therefore prices-up ods and prices." and striking to bring prices down, heads toward an breakdown in which nobody would produce anything, nobody would buy anything and everybody provement. would quit eating. That would be inconvenient.

prices rise in the markets for products of many in-ther own station. dustries. They are all tied together by economic laws.

There are more words in a lie than in the truth.

A bachelor's tax is often proposed, and with the women voting it would doubtless carry.

Money is a great thing. It talks in every language —yet it never attended a college.

## A Conservationist Is Defined County Dairymen THE New York State College of Forestry at Syra- To Study Dairy Cattle Breeding The conservationist is essentially unselfish. He i

person willing to give as well as take. He is a peron who looks into the future, visualizes the need posterity and respects that need for he will reflect "What I have today is a loan for my lifetime, nothing It was previded for past and future generation as well as for me. It is simply my turn to pass it and if I can, with interest."

The conservationist has consideration for other improve their dairy herds thru betfolks. He intends to be constructive in thought and ter breeding at a two-day school to act in everything, particularly where people, wild life be held at Fillmore in the Agricul and the forests are concerned. He protests against tural Hall, Thursday and Friday, useless destruction of forest, soil and game, and he is intolerant of wasteful practices. He will work for others as well as himself. He realizes that only by other and the Farm Bureau. Mr. In the Greenwood Central School, is industry, are partly the problems of done at just a certain time.
