Preparation is Ninety Per Cent of Success

The time is approaching for planning for our gardens. Let us not forget the flower carnival to be held in the late summer. Bring out the catalogues and make your list of seeds and plants. When the winter has gone by, get out the hoe and spade, spend a few healthy hours in breathing the odors of the soil and prepare the way for the most beautiful display of flowers ever seen in our attractive little town of Andover. You will be reminded of the flower show from time to time, so that you may not forget.

Baker's Hardware News

GRASS SEED

There has been many articles in the papers recently concerning the scarcity of Clover and Alfalfa seed. This is doubtless true to a great extent, as Red Clover Seed is quite high in price.

However, we have purchased enough seed to fill our ordinary requirements; the red clovers were grown in Ohio and Indiana and we have no fears of not being able to take care of our regular customers.

There was a big crop of Timothy last year so that this is less in price than last year.

Taking all these facts together, it will cost no more per acre to seed this year than in 1937.

PAINT

The holiday season is over and it is time to begin planning which part of the house you will fix up this spring, by painting and papering.

If you will tune in any Monday at 11:45 o'clock, you can get many good ideas as that is the time Betty Moore broadcasts on "Interior Decoration."

If you do not learn just what you wish to know, just write to Betty Moore, 511 Canal Street, New York City, or if you forget her address, write us and we will see that she receives your letter. She will answer any question and give suggestions as to just how to beautify your home.

Do not put it off until spring; make your plans now, so that when the time comes to do the work, you

will know just how you want it done.

Just give Betty Moore a rough floor plan of your home and she will give you proper suggestions for decorating—and we will be ready to furnish your materials.

FLOORS Need Cleaning?

Double X bleaches as it cleans—does it better and cheaper and without fuss or fumes or fire fear.

Floors are bound to get water-spotted and dirty during the wet snowy weather—Double X removes every trace of spots and of old worn varnish or shellac and bleaches the wood back to its original beauty at the same time. In one operation, it does all this and all so easily, efficiently and safely. Moreover, it will not raise the grain or buckle the floor.

Double X is so easy to use too. All you need is a can of Double X, a pail, a mop or scrub brush and a bit of steel wool. A pound of Double X makes a gallon of solution, and it goes a long way. It is harmless to the skin and clothing. It will not and cannot explode—consequently there is no danger in using it.

Use Double X, and be convinced that it is the one and only floor cleaner. Price 25c and 75c.

HITCHING ON—
