TURN OVER A NEW LEAF

With mid-year exams in the past, all students need to concentrate on putting forth their best efforts towards gaining success in the June finals.

The old saying "turn over a new leaf" is a keynote to a new start. If a leaf were turned over in just one subject by each pupil, headway would be gained. Teachers alone cannot put a pupil thru. The pupil cannot do it all himself; co-operation on the part of both and self-effort from the pupil will result in success.

Start this semester with a boom and keep it all the way to June.

Let's see the number on the honor roll increase. Editor

Good Regents Papers

Altho relatively few pupils took Regents examinations in January, the results are quite in keeping with the consistently high record that Andover High School has maintained during the past few years. Out of the 24 papers written there were four failures, or 83.3% passing.

Both the commercial law and intermediate algebra classes which are the only Regents classes regularly finishing in January, made a fine record with 100% of the pupils passing.

Three of the six pupils in intermediate algebra wrote 100% papers, these honors going to Donald Hardy, Doris Honegger and Leo Nobles.

In elementary Regents there were 85 papers written, 79 receiving a passing mark. Per cent of passing of these subjects is 93.5.

She is an excellent dancer and a very good basketball player. We all wish Marian the best of luck in whatever she undertakes to do in later life.

Andover Upsets Favored Team

Andover maintained her lead in the Allegany county C league by upsetting a favored Angelica team Friday night on the Andover court. In one of the most thrilling games of the season the Andover team fought its way to a 26 to 21 victory before a gymnasium filled with excited fans.

A large crowd followed the Angelica team, fully confident of an easy victory for Angelica. However, Andover jumped into the lead with a foul shot by Briggs followed by spectacular one-handed shots by Antan and Oakes.

The offensive ability of George Joyce kept Andover well out in front thruout the game with Antan's and Briggs' help. Oakes showed his usual display of defensive skill. This helped hold the Angelica team to within seven points of Andover during the last half.

The victory leaves Andover with excellent chances for winning the Allegany county Class C championship. Summaries follow:

Varsity to Play Wellsville

On Tuesday, Feb. 8th, the game for which all Andover basketball fans have been waiting for will take place when Wellsville High School will make their annual appearance on the local court. Wellsville, despite an experienced team, has been finding the Steuben county opposition a little too strong, but is confident of defeating the locals.

Andover upset the Wellsville team at Wellsville and will try to turn the trick again. Andover has now defeated Wellsville in the last four games played between the old rivals. A capacity crowd is expected to witness the local boys' attempt to make it five in a row.

In a preliminary game, Clare Jackson and Everett Clair of the town second team will lead their speedy aggregation against the high school seconds.

The game with Whitesville, which was to be played at Whitesville on February 3rd has been postponed by Whitesville. The game will count as a win for Andover.

Grade News

Seventh Grade Starts Homemaking

The seventh grade girls are looking forward to their course in homemaking under the direction of Miss Wood. They have heard such interesting reports from the eighth gradcrs that it is with a real sense of anticipation that they begin their first week in the Homemaking house. The boys seem to be rather envious of them.

The seventh grade is glad to welcome back Elaine Pope, who has been sick since Christmas. The cause of her long illness was pneumonia.

The first grade pupils are preparing a sand table whose central theme is the life of Abraham Lincoln, whose birthday will be celebrated this month. There is a log cabin buiit in a woods; above the sandtable are three pictures of "Abe" Lincoln, one of which shows Lincoln chopping wood.

The sixth graders have made safety first posters, which form a border above the blackboards.

Virginia Joyce has charge of the radio program this week, which will be given on Wednesday during the English period. The rows are divided for a contest in arithmetic. The fifth row won a star for January.

Humor

Dick McAndrew: "Pop, I need an encyclopedia for school."

Mr. McAndrew: "Encyclopedia nothing! You'll walk to school as I did."

Mrs. Ahrens: "John, you have a cold. You talk thru your nose."

John: "You must be mistaken, mother; I can't even breathe thru it."

Marion B.: "Why the camera on the hood of your car?"

Carl Will: "Oh, that's a movie machine. You see, I go too fast to look at the scenery."

Mrs. Burgett: "Now, Charles, you must not be selfish. You must let your brother have the sled half the time."

Charles: "But I do. He has it going up the hill and I have it going down."

Mr. Host: "Define average."

Louis Dodge: "An average is a place that hens lay on."

Mr. Host: "Why, what do you mean?"

Louis: "It says right here in my book: 'A hen will lay on an average, one egg every other day'."

Miss Cappuccilli: "Give me some sentences using 'beans'."

Jack Saunders: "My grandfather grows beans."

Dolores Farwell: "My mother cooks beans."

Louis Fulkerson: "We are all human beans."

Grade 1B Opening Postponed

Instruction in Grade 1B for pupils five years of age who have not entered school will probably be given again this year, but the opening of this class will be delayed until about the first of March.

With 38 pupils regularly enrolled in the first grade, it was considered advisable to delay the opening of the pre-primary grade, since the first grade pupils must be dismissed about an hour earlier. Further announcement will be made previous to the beginning of the Grade 1B

Guess Who

Crashing thru his opponents, this member of the Senior class scores another point for his basketball team. Equally as graceful on a dance floor and nearly as studious in his subjects, he is a great asset to his school. Having a keen sense of humor and a nose for mischief, he keeps his schoolmates well entertained a good share of the time. We are sure that you can identify this curly-headed fellow.

TRUE STORIES OF HITCH HIKERS

by L. ELLIS EVONS

Frame Up or Suicide

He was a salesman for a tobacco company. It was a terrible day, rain, snow, slush. Not feeling like work we got to talking about our experiences in motoring. He had driven a car for years and one day was to have an experience that shows how innocent people can get into trouble.

Let me tell it as he told it to me.

"I was driving along a city street, when a middle aged man walked directly in front of my car. I stopped so suddenly that he walked right into my car and staggered back, falling in the street. He cut his head. An officer came up. He had seen the accident. We took the man to a hospital and when we asked him his name he pretended not to be able to talk, but opened one hand and there was a card with his name and address written in ink. At first the hospital said the man had a fractured skull and the police held me in $3500 bail.

"I was hard put to get this bail as it was certainly high. Being suspicious and having had two years experience as a law student, I started an investigation of my own. I canvassed his neighborhood, took a witness with me and could not find a person who had seen the accident. In fact at the time it happened there was no one around but the officer. I found out that he had been unemployed for two years, owed taxes, bills to merchants, and was behind with his building and loan.

"I was determined to find out if this was a frame up or suicide attempt. At the first hearing before a certain magistrate, I had the bail reduced to $300, as it was necessary to wait for a report from the hospital. The second hearing was set for two weeks ahead which gave me time to investigate, which I did as I said.

"When the second hearing was called I was to get some shock. He had over 30 witnesses, who testified that I had hit the man and did not stop. They had reported me to the State as a hit and run. Everyone of his witnesses had the same story. They said the car that hit him was a Ford Coupe and of course had not stopped—they were all very sure.

"When it came my turn I acted as my own lawyer. First my car was a Chrysler sedan. I had retained the card with his name and address and told the court how he had it in his hand at the time. The police officer testified for me, but 30 witnesses to one. My blood was at the boiling point to think that here was a frame up to make me pay this man's debts. It was then that I played what was to be my trump card.

"I had noticed the manager of a chain grocery store testify like the rest and remembered that my friend and myself had talked to him while conducting our investigation. Turning to the magistrate I asked him what the fine was for assault and battery. He said $13.50 and not saying a word I took the money from my pocket and laid it on the desk before him. I then grabbed the chain store manager by the collar and yanked him up front.

"Now," I said to him, "I have just paid for the privilege of giving you the licking of your life, if you do not tell the truth. You told me and my friend that you were in the back of your store and did not see this affair. Now what have you to say?" With that he told the magistrate he was paid $10 to testify as he had. Well that was something. The case against me was dismissed and the magistrate fined 28 of the witnesses $50 each for perjury."

That was some experience, and reminded me of a motorist who found a child, killed by a hit and run motorist. Picking up the poor child and taking it to a hospital, he was held in jail for two days for being the good samaritan. How can an honest motorist protect himself against such things?
