ASBESTOS SIDEWALL SHINGLES

We stock "Ru-ber-oid" Colonial Timbertex Siding, an asbestos, fireproof shingle. Applied over clapboards or wood shingle siding, these shingles provide double insulation—a warmer home in winter, cooler in summer. We recommend cork-backed "Weatherpad" beneath asbestos shingles. We are pleased to estimate cost of application for any building.

MILK - GRASS SEEDS

Can one draw any comparisons between the two?

The first thing a man does when he gets his milk check is to look for the amount in dollars; second, the price per 100 pounds, and third, the test.

If the test is low he often finds fault with the tester, even going so far sometimes as to thinking he is not being fairly treated.

If his test continues to be low from month to month, he knows the cows are at fault and begins to look around to see where he can buy some whose milk will improve his test.

Since cows do not wear a tag stating their test and since very few farmers have individual tests of each cow, he can only guess as to what the cow he is buying will really do.

Not so with grass seeds! Each and every bag must have the analysis on a tag attached to it.

In spite of this fact, the people when they come to buy seed ask this question. "How much is timothy and clover seed per bushel?"

They never ask when they come to buy, what is the purity and germination of your seed this year, where it was grown and is it adaptable to this climate and then figure from that comparison where is the best place to buy seed and where it is the cheapest.

Some seed may be cheaper at

\$3.00 per bushel than others at \$2 per bushel.

Here is the analysis on the Timothy Seed we have to offer:

Purity ..... 99.70 Other crop seeds . . . . .10 Inert matter .....10 Weed seeds .....10 Germination .....92 plus

For years it has been the policy of this store to buy as good seeds as the market affords and from our good amount of sales year after year, to the same customers we feel this policy should be continued.

White TEA CUPS and SAUCERS

You may buy them separately too, if you wish. The quality is heavy—the size is good—and the price is right—5c each!

WOODEN MEAT MALLETS

Make tough meat tender and cost 20c. Try one!

POLISH MOPS

Big and fluffy, treated to pick up dust instantly and with very little effort. They have long handles that fold down for reaching under furniture—sell for \$1.00 each.
