MR. J. HARVEY BACKUS

With the passing of J. Harvey Backus, the Andover High School loses one of its best friends. From the first Mr. Backus has been not only co-operative in every way possible in the publishing of the Hi Herald, but he has been a genuine friend, criticizing, offering helpful suggestions, always ready to lend his aid and support whenever needed, but never interfering unless his advice and counsel were sought.

The Hi Herald staff wishes at this time to extend its sympathy to his family in their bereavement, and to offer in this column a final tribute to the man who did so much for the Hi Herald possible.

## Editorial

CO-OPERATION

We could get a great deal done by cooperation in this school if we set about it. When some few pupils are willing to help do something the rest usually say "well, they are willing, let them do it." That is not the right way of getting things done well.

Then again, after someone else has done all the work, the one who didn't help, criticize what has been done. This attitude is not only childish, but it indicates a lack of proper judgment.

If the student had cooperated just a little with the basketball team, and the team with the teacher, we would be a great deal better than the present.

As there are only a few more days left before Regents, cooperation by both teachers and students is needed. The teachers are always willing to put forth their best efforts in behalf of the students, so it is up to us to cooperate with them in order to get the most out of every class.

Think it over!

AHS

## Seventy-two Couples Attend Senior Ball

Approximately 72 couples attended the Senior ball Friday evening, June 7th in the high school gymnasium.

The gym was appropriately decorated with the Senior class colors, crimson and white. A canopy of red net held balloons which cascaded down upon the dancers toward the close of the evening. Confetti and serpentine, showering the seniors and their guests, fluttered from the balcony. Johnny Fitzgerald and his orchestra were, as usual, very satisfying and helped decidedly to make the evening the success it was.

Mr. and Mrs. Raymond Snyder and Mr. and Mrs. William Alderson chaperoned.

AHS

## Faculty Facts

Miss Lillian Butler is planning to attend a committee meeting at the David Howe library, Wellsville, this Thursday, June 9. The meeting is being held to plan for the teachers' conference next November.

Miss Evelyn Lloyd spent the week-end at her home in Little Valley, N. Y.

Mrs. Mary I. Christiana of Wellsville was the guest of Mr. and Mrs. Ralph Schwarzenbach over the week-end.

Mr. and Mrs. Louis Joyce visited in Seneca Falls during the week-end. Gordon Parker and Miss Lila Welcher of Newark, U. Y., were the guests of Laurence Host. While here they attended the Senior ball Friday night.

The following teachers attended the Senior ball:

- Misses Lillian Butler, Beatrice Dickinson, Rita Elliott, Catherine Killgrew, Evelyn Lloyd, Josephine Cappuccilli, Prin. and Mrs. Glenn E. Bretsch, Mr. and Mrs. Louis Joyce, Mr. and Mrs. Delbert VanOxx, Mr. and Mrs. Wm. S. McGee and Laurence Host.

## Andover Loses to Belmont In Final Game

A weak batting high school team went down to a 7 to 1 defeat at the hands of a Belmont team. Andover's five errors accounted for many of Belmont's runs.

Antan started on the mound for Andover, allowing two hits in three innings. Burgett substituted for Antan in the fourth and allowed three more in the remainder of the game. Dugan and Perry made Andover's only hits. This game closed the baseball season for this year.

## Rev. Flaxington Is Commencement Speaker

Rev. Ward R. Flaxington of the Westminster Presbyterian church of Hornell has been engaged to give the principal address at the Andover High School Commencement exercises, Wednesday evening, June 29. His topic will be "Parents in a Pinch."

## Junior-Senior Picnic Planned

Friday afternoon, June 10, the Junior and Senior classes will go to Leon Lake for their annual outing. Transportation will be furnished by Mr. Wentworth. A picnic lunch will be provided by the two classes. Following the picnic, roller skating will be the most important event until 9 o'clock when dancing at the pavilion begins and continues until 11 o'clock.

## Hi Herald Officers Nominated

At the regular meeting of the Hi Herald staff last Thursday, June 2nd, nominations for editor in chief and business manager for the 1938-39 semester were held. The highest nomination vote for editor in chief went to Donald Oakes and for business manager to Teresa Burns.

## Review Classes Are Held

Review classes are being held in most Regents subjects during the few days remaining until Regents week, which is June 20-24 inclusive.

## Sixth Grade Has Spelling Contest

The sixth graders' spelling ability is being tested by a spelling contest. The two leaders are Helen Smith and Cassy Geary. Both sides are working extra hard to win over their opponents. There will be some sort of a reward for the winning side when the contest is ended.

## Humor

Mother: "Would you believe it; I told Billy to go upstairs one at a time to save his boots and he went up three at a time and split his trousers!"

Jack Saunders: "You know, you're not a bad looking girl." Thelma Ahrens: "Oh, you'd say so even if you didn't think so." Jack S.: "We're even then; you'd think so even if I didn't say so."

John Lynch: "Pa," said John, looking up from his composition, "is 'waterworks' all one word, or do you spell it with a hydrant in the middle?"

## Mileage Hints

By J. F. Winchester, Supervisor of Motor Vehicle Equipment, Colorado State Highway Dept.

The motorist who enjoys and demands rapid acceleration and high speed should not expect to get the same mileage from his motor fuel as the motorist who does not seek rapid acceleration and who travels at a reasonable speed.

A recent study revealed that in a quarter-mile test a car obtained 6.2 miles per gallon when it was driven in first speed to 25 miles per hour, in second to 40 miles per hour and in high to 62 miles per hour. This same car, however, got 13 miles per gallon, or virtually double the mileage, when it was run in first speed to 15 miles per hour, in second to 27 miles per hour and in high to 43 miles per hour.

Uncle Ab says that when a fellow has to think of an alibi, he's slipping.

In New York State 395 schools have forests of from less than one acre to several hundred acres in size. Schools, as well as towns and cities, can successfully manage forests on small areas of waste land.

When dyeing blankets that have colored stripes, hang them so that the stripes are perpendicular to the ground; any dye that runs is then less apt to go into the rest of the blanket.

### Homemakers' Exchange

of Helpful Household Hints and Recipes

Conducted by ELEANOR HOWE

When pressing a pair of trousers, try putting a little raw starch in the water used for dampening the pressing cloth. You, as well as the man-of-the-family, will be delighted to see how much longer the trousers stay pressed when this is done.

If you've ever been bothered with the wandering crumb problem when grating or grinding bread, simply grate or grind the bread inside a large paper bag. This not only solves the problem but leaves the crumbs in the paper bag, ready for storing, as well.

The lenten season welcomes a temper-saving suggestion such as this for all homemakers who have been bothered with having fish stick to the pan. First, heat the frying pan. Then shake a little salt into it (the amount that would ordinarily be used to salt the fish) and let it brown and jump about before adding the fish or other cooking fat. When the fat is hot, add the fish, dipped in egg and flour or cornmeal, and fry slowly. The fish will not stick at all.

### SCOTCH ICE CREAM

sets up little appetite longings. This recipe guarantees that the outcome will be even nicer than the anticipation:

Combine 1 pint milk, 1 pint coffee cream, 1 cup brown sugar and a dash of salt, and heat to the scalding point. Remove from flame and slowly stir in 2 well-beaten eggs. Cool and then blend in 1/4 cup ripe banana pulp and 1 tablespoon vanilla extract. Pour in freezing container of modern ice cream freezer, filling it not more than 3/4 full; assemble freezer and cover. Surround with a mixture of 3 parts crushed ice and 1 part rock salt.

Turn crank slowly but steadily for 5 to 10 minutes, or until turning becomes difficult. Then carefully remove cover, lift out dasher, and pack down ice cream with a spoon. Replace cover and draw off water. Replenish ice and salt mixture, cover, and allow to stand at least 1 hour before serving. Serves 6 to 8.

If you want to save a lot of time and bother when you are measuring a hem for a dress, just fasten your yard stick into a monkey wrench. This will keep the stick or ruler upright without being held, and the wrench is weighty enough to "stay put." Then all you have

I CAN'T WORK MY HEAD IS SPLITTING! WHAT'LL I DO?

SUP OUT AND GET AN ALKA-SELTZER

HEAD-ACHE

How many times has a headache ruined your day's work—spoiled your evening's pleasure? Users of Alka-Seltzer say that Alka-Seltzer gives unusually prompt and effective relief from Headache. Try Alka-Seltzer for Acid Indigestion, Muscular, and Sciatic pains. Alka-Seltzer contains an analgesic (acetyl-salicylate) for pain relief. Its vegetable and mineral alkalis tend to correct the cause when due to hyperacidity of the stomach.

At your drug store soda fountain and in 30¢ and 60¢ packages for home use.

BE WISE—ALKALIZE!
