In the great game of Life, it's the purpose to win, And the courage to fight to the end, That determines for you what degree of success Will be scored to your credit, my friend. The best you can do may not be quite enough To defeat your opponents today: But you never can lose, and you never can fail,

If you "put all you've got" in your play; And the greatest reward that your efforts can bring Is the fact that you stood to the test— That you played a clean game, and you fought a good fight,

And you always were doing your best!
