**WATCH REPAIRING**  
 Richard Trowbridge came into the store last Monday morning and said he was looking for a place to put a work bench for jewelry repairing.  
 After listening to what he had to say, and being always anxious to give a worthy Andover boy a chance to get started in business, we gave him space in our store.  
 He has taken the course in watch making at Elgin, Ill., a school sponsored and maintained by the Elgin Watch Co., and has had practical experience besides.  
 If in need of having work done of this kind, give him a call.  
 You will find him in the front part of our east side store.

**HOT OR COLD**  
 Just a little forethought and a thermos bottle or jug and your drink is ready whenever you want it.  
 Always carry along an adequate supply, as the places where traveling and camping is at its best are not always provided with roadside stands or a natural supply, and thirst may take the joy out of what would otherwise be a most enjoyable outing. We have dependable jugs from \$1.15 up.

**FLY TIME**  
 The use of swatters and fly spray liberally at this season will mean comfort now and less to bother you next year. — Our stock of fly-swinging Tools and Sprays is complete. A good selection at economy prices.

**WHITE SHOES**  
 Always need a little touching up after each time they are worn. Griffin's Allwhite in 10c tubes is just the thing for this job.  
 If your shoes are especially dirty, try a bottle of Whittemore's Shu-Clean and you will be pleased with your results.  
 We also have liquid shoe blacking in bottles, and paste polish in boxes of black, brown and tan.

**BUGS**  
 Watch your tomatoes and cucumbers for bugs. We have the proper treatment for them at only 10c per pound.
