SCHOOL TRUSTEES

Have you everything ready for school? If not, the teacher will be asking for the missing items this week. Broom, crayons, erasers, water pail, toilet paper, floor oil and other articles for use around the school house are now in stock and ready for the new year.

LAMP BULBS

A bargain lamp is almost never a bargain, because it wastes current and grows dimmer and dimmer as you use it. Just remember that the true cost of light is the price of the bulb, plus the cost of the current that it consumes. When you use poor lamps, you may be paying \$1.50 for a dollars worth of light.

General Electric Mazda Lamps, the kind that stay brighter longer, now cost only 15c up to and including 100 watt. The evenings are getting longer, so you better put in new lamps where needed and be fixed up for all winter.

COOL MORNINGS!

The time of year when the weather is hard on your hands—the sudden change causes chapped and sore hands. A pair of gloves or mittens will go a long way toward preventing this condition. Even a pair of Jersey or Canvas Gloves are a great protection.

Gloves range in price from 13c to 50c, a wide variety to meet every man's needs.

STORM WINDOWS AND DOORS

Will cut your fuel bill considerably, will eliminate all trouble of steam collecting on your windows and will overcome that dampness in your home, which so often occurs during the cold weather. We stock several sizes of windows and doors, and are ready to supply your needs at any time. Come in and let us give you a price on storm windows and doors for your home, and this winter will be the warmest one you have ever known.

SHOE REPAIRS

Leather, Penco and Stick-on Taps, Rubber Heels, Shoe Nails, in all sizes; Shoe Laces, also Blacking in Liquid and Paste to shine up the job, and you will be surprised at your improved appearance.

HORSE COLLARS

Do your horses have sore shoulders? Often the cause of making a balky horse is an ill fitting collar. Give the horse a fair chance by fitting him with the proper sized collar and see how much more willingly he does his work.

SHELVES

The new style shelf bracket without the triangular brace makes it easier to put up and assures extra strength. They come in all sizes, at reasonable prices.

GRANGE NEWS

Edith M. Thorne, Lecturer

Now that the crisp nights and the beautiful days of the autumn are upon us, let's take our Grange work a trifle more seriously. Let's make Wednesday night's meeting a pep meeting, as we consider some of the higher joys of life. Let each one come prepared to contribute something to the program!

WAFTINGS

from "Wandering Willie"

BETWEEN Editor "Rus" Pierson of Belmont and the "Grief" column of the Wellsville Democrat, a fireman is someone who likes his beer, soft drinks and hard liquor, and the minute he gets tanked up goes berserk destroying all the good people's property and raising merry, well, you know. Being one of these so-called "brothers of the ladder and nozzle" you so aptly described, Carl, we resent the implication that all firemen are as black as you and "Rus" would have.

If either of you boys would have taken the time to get a real good look you would have seen that the destroyers were a very small majority of the firemen present either at Cuba or any other village holding a convention, and if the local authorities of those places haven't the gumption to toss this same small majority into the hoosgow, well they will have to stand the consequences.

If a man walks down the street and throws a brick or a bottle thru a window at any other time he is promptly put in the jug by the big strong arm of the law, but if he happens to be at a convention and does the same thing, the big strong arm turns out to be a thumb. No, "Rus" and Carl too, we still don't like the idea that all firemen are the boys from Hades that you fellows make out.

THE AUXILIARY girls are looking for a little advertising for their stand but all we can say is that if you want to jam your teeth into the best "hot dog" or "Wimpy Special Hamburger," get them from the Auxiliary booth.—We know, we've tried 'em!

TALK about buckwheat crops in Andover this year! Arling Briggs said he cut a field last week and the straw was so thick he had to take some of it out of the field in order to shock it up.
