EXTENSION CORDS

When you sit down in your easy chair these dark evenings to read, is your reading lamp located where it gives you the best possible light? If not, an extra extension cord will allow you to move it around to the desired place. In lengths 9, 12, or 15 feet as low as 35c, or we can make them up in any length desired at a nominal sum. The wire we use in making up these cords is approved by the Insurance Underwriters, hence you are not increasing your fire hazard in using it.

SQUARE TUBS

Have now been on the market long enough to prove their worth and general appearance by all who use wash tubs. Add one to your laundry outfit and prove its advantage.

SOOT REMOVER

Is an excellent chemical compound for cleaning soot from chimneys, stoves, furnace pipes, boiler flues, etc. It saves fuel and prevents chimney fires.

A Timely Warning

Is your chimney safe? If cracks appear in the brick or mortar has fallen out, have it repaired by a good mason. If a chimney is cleaned twice a year it isn't liable to burn out. The old theory of burning out a chimney to clean it is a dangerous practice. The intense heat may crack the brick or sparks may ignite the roof.

Clean it and be safe.

Clam Bake Postponed

The committee in charge of the firemen's clam bake scheduled to take place this Sunday have decided to postpone the event, owing to the limited time allowed. The bake will be held at a later date.
