the welcome given to it. Following is a fair sample of the results of the assignment:

When the teacher handed me my report card, I looked at my marks, and prepared myself for a lecture.

I put my card in my hip pocket and went home. When I opened the door, I expected someone to ask for it. but as luck was with me, no look of the control of the cont for it, but as luck was with me, no one did. I gave them my card. I was so mad at my brother that I could have choked him. By the time I thought choked him. By the time I thought the lecture would come, I had fin-ished my dinner. And do you know all mother said was "Why this is the best card you've ever had."

At this time my worries ended for another five weeks.

## Interesting Sights

If football coach Benny Beardman thinks his job of training eleven players is tough, he ought to take over a few of the lower grade gym periods. I think he'd be glad to go back to football.

Instead of eleven, he'd have about 30 exuberant kids to keep out of fights, and from breaking their necks. And that isn't so easy as it Whether or not they know it, the

## Andover Defeated By Belfast, 2-1

As the six delegates of the Hi Andover's journey to Belfast last Herald staff enjered the Rushford school for the first A. C. S. P. A. meeting, lights went out, clocks stopped, and chickens on the electric ranges ceased to cook.
