Cool Days and Nights Remind us that Radiant Fire days are here again.

Surprisingly soon now one will need heat for the chill evenings and frosty mornings of Fall. What we want is heat that is flexible, heat that can be turned on and off

A Radiant fire is the ideal solution to the heating problem presented by changeable Fall weather. With a Radiant fire you have at your finger tips an abundance of pure radiant heat instantly available. There is no need to start the central heating plant to care for intermittent demands for heat when a Radiant fire will do the job better and with less expense.

Drop in and look over our new line of Fall Radiant and Winter Ranges. They are very attractive as well as Prices range from being very efficient. \$2.50 to \$59.50
