from there the team led by six points before Alfred-Almond could get under motion.

High scorer for the locals was Dolan with seven points, followed by Karcanes, Howland and Holt with four points each. High scorer for Alfred-Almond was P. Lippencott with three points. The Andover J. V. showed both offensive and defensive strength by keeping at least ten points shead of their opponents the entire game. Possibly some of the players may be given berths on the Varsity team. Chances are the seconds will finish with an outstanding season, even tho the competition rates better than Alfred-Almond.

Alfred-Almond was David Stream Chance and the stream of the first graders have become rates better than Alfred-Almond.

Alfred-Almond could get under mass was played by the source of the first Grade during the month the month of the symbols of Indian writing to represent show and sunshine. During the month the children recorded snow on 13 days, rain lays, and cloudy on six days, sunshine for five full bays, and cloudy on six days.
