If you're a war wife — mother — or sweetheart . . . you'd do a LOT to give that boy a better chance to get back safe.

Well then . . . DO IT!

GIVE HIM THAT BETTER CHANCE!

ROUND up your scrap metal—it's needed to make steel. Steel for armor plate to protect him from bombs and bullets. Steel for weapons to help him do the job that must be done before he can come home again.

You don't want production figures. . . . It's enough to know that 50 per cent of all new steel is made of scrap—that our steel mills

are threatened with another serious shortage of good heavy scrap.

What happens depends on all of us. If production falls and you've not done your part, will you rest easy?

We need to build the biggest stockpile of scrap metal you've ever seen. Then when the steel mills need it, we'll have it—because you came through . . . for HIS sake!

WATCH THIS PAPER FOR DETAILS ON HOW YOU CAN HELP COLLECT SCRAP

Call the Andover Salvage Committee, Phone 112—the Andover News, Phone 242—any member of the Andover Fire Department . . . OR BETTER YET—drop a card addressed to the LOCAL SALVAGE COMMITTEE, Andover, N. Y., telling them you have scrap,

Scrap Drive Is Now On!
