# TO MOTHERS AND FATHERS WHO ARE COUNTING THE MINUTES

"That's a hell of a place to put

VERY minute drags when you are waiting for your boy to come home on furlough.

You recall when he was a tow-headed little fellow playing soldier in the backyard. It was play then, with mother's first aid always at hand to soothe scratched knees or bruised elbows and wipe away

It seems only yesterday—now he's a real soldier.

You wonder whether he has grown since he has been away—whether he still has that shy smile you always lovedwhether he says his prayers at night as you taught him.

Pride swells in your heart as you wait for the train. You have a thousand questions to ask and every minute with him will be precious.

Erie and other American railroads know how precious these minutes are to mothers and fathers. Moving 1,750,000 troops a month—more than 50,000 a day -brings the railroads close to problems of the boys in the service.

Half of all Pullman cars and almost 3000 day coaches are required now for troop movements alone. This makes it difficult to take care of soldiers on furlough and civilian travel, too.

But the American railroads are handling this tremendous task with the cooperation of patriotic citizens who are discontinuing all non-essential train travel. These citizens realize that space they occupy may prevent some mother and father from spending precious moments with the little fellow who once played soldier in the backyard.
