Are you buying Bonds?

THE THIRD WAR LOAN

The Campaign for the Third War Loan of 15 billion dollars is under way.—\$50,000.00 of this amount is assigned to Andover.

About 150 boys from Andover are fighting our battles. The least we can do is to see that they are provided with the best of planes, tanks, guns, etc. to fight these battles and accomplish victory in the shortest time and with the least possible loss of life.

It is not only a duty but a privilege for everyone on the home front to "Back the Attack" by buying U. S. Government Bonds, the best security in the world, to the limit of his or her

Let's forget all petty differences. Mistakes were bound to occur; have occurred and will continue to occur. An undertaking of the magnitude in which we are engaged could not be otherwise. It is remarkable that so much has been accomplished in less than two years of allout war effort. However, let's not forget Pearl Harbor; the boys who gave their lives at Corregidor, at Guadalcanal, at Midway and Wake Islands, in the Solomons, on New Guinea, in Africa, Italy, China, Alaska and throughout the world. Last, but not least, let's not forget those who lost their lives on our fighting ships and in the merchant marine. Other boys will take up the torch only to meet the same fate; still others will take their places and in due time carry on to victory to preserve the liberties we hold most dear.

Fifty thousand dollars of cash value means that \$67,000.00 of maturity value must be sold or \$50.00 for each man, woman and child in the community. Obviously there are a good many people who can afford to buy only in limited amounts. This means that others who can afford to do so must buy in liberal amounts if Andover is to meet its quota. We must not fail.

Bonds are on sale at the Postoffice and The Andover National Bank, Buy yours today. Buy all you can afford; then think it over and buy more tomorrow.

'Just a Citizen" Talks About the "Blood Bank"

To the Editor of the Andover News:

Another "Blood Bank" has been passed up by Andover.

wonder why? Is our patriotism just a thing

of bands and parades? Out of a population of 1,200 surely there are 100 who are physically fit to donate a pint of blood to save the life of your son or some other mother's son.

Our boys are "over there" not on a pleasure trip as I'm afraid some think, but "giving" all they have to protect you in this town I so you may continue to go to bed and continue your business in peace. As some of the boys from 'Andover wrote home and said: "We can take anythink and everything they dish out to us if we know the people of Andover

are behind us." I hope this boy never finds out how miserably we have failed in this simple thing.

If any one was to be hurt physically, that would be different. Some complain because the doctors are just "butchers." Perhaps they aren't as gentle as you would like them to be but the Jap and German bombs and bullets aren't gentle to our boys

Dear people of Andover, let's Andover people were deeply stop and take stock of ourselves,
