## Waste Paper Goes to War

FROM the day a soldier goes to war, he is dependent on paper. From his draft card to his honorable discharge, his records are kept on it.

His rations are packed in it; his cartridges are wrapped in it; his shoes are lined with it; his letters are written on it.

His barracks are built with paper wallboard, paper roofing, paper insulation.

He shoots at paper targets, eats from paper plates, drinks from paper cups.

His battles are planned, his orders are issued, on paper.

Literally, he lives, trains, travels and fights, with paper his indispensable ally.

And, of course, his "honorable discharge" will be handed to him on a piece of paper—after a beaten Axis has signed the peace terms—on paper!

## Lifeblood of War Machine

A FEW highlights drawn from the battlefronts illustrate the tremendously important role oil and gasoline are playing as the lifeblood of our war machine. Do you know that:

1.—Training planes use 50 gallons of 100-octane gasoline in an hour.

2.—It requires about 250 hours in the air, during which 12,500 gallons of gasoline are consumed, to train an average American pilot for the front lines.

3.—When flying in actual combat, each engine of an Army or Navy plane averages approximately 100 gallons of gasoline per hour.

4.—Every Flying Fortress that bombs harbor installations at Naples from its base in North Africa requires 1,110 gallons of gasoline for each single mission.

5.—A modern destroyer uses more than 3,000 gallons of fuel oil an hour while operating at sea.

6.—An Army transport burns 33,000 gallons of fuel oil a day.

7.—One of Uncle Sam's famous P-T boats carries its deadly charges along at 55 or 60 knots and burns up approximately 250 gallons of fuel oil per hour.

8.—An Infantry Division in 1917-1918 had motorized equipment representing about 3,200 h. p, compared with 400,000 h. p. in the present war.

9.—The Army reports that in the first year of this war, overseas shipments of all supplies increased 600 per cent compared to the first year of the last war. But overseas shipments of petroleum products increased over 8,000 per cent. Mechanized war means an oil war.

---

An Army rifle weighs 8.69 pounds. After it has been carried a few miles, the decimal point drops out.

---

Brains are not for everyday use, but are precious until emergencies have become crises.

---

Leadership in any community is not attained by contributing a few dollars to various public causes.

---

It always seems to take a pair of squeaky shoes the longest to get anywhere.

---

Noting all the talk about the low visibility of the bridegroom, Peggy points out that there is one time in his life when the spotlight falls blindingly upon him. It is when his daughter is married and they have to let father walk up the aisle with her.

## CHURCH SERVICES

### FIRST METHODIST CHURCH

**Rev. W. D. Shearer, Pastor**

Christmas Sunday: at 10:30, morning worship. Sermon, "To All Peoples." Special music by the choir.

11:45, Church School.

Each Sunday afternoon at 5 o'clock a fifteen minute program of organ music and chimes will be played from the bell tower.

6:00 tonight (Thursday) Members and friends of the parish are invited to a Christmas tureen supper and program at the church.

Choir rehearsal will be held Thursday evening directly following the Christmas party at 8:30.

### SEVENTH DAY BAPTIST

**Rev. Walter L. Greene, Pastor**

Sabbath services at 2:30 p. m. Sermon by the pastor. Subject: "Christmas Preparations."

## Office of War Information

**Farm Help for Lumber Supply**

Because of the critical overall lumber and pulp-wood shortage which directly affects farmers, who are large users of lumber and wood products, Marvin Jones, War Food administrator, indicated that farmers should help by: (1) increasing production from farm woodlands during the winter and (2) providing labor for forest industries during the slack winter season on farms. Lumber used on farms for the construction and maintenance of farm buildings requires 3½ billion board feet of lumber annually, Jones said.

**Gift Packages Point Free**

Gift packages of jams, jellies, fruit butter, preserves and non-citrus marmalade that were packed before October 23 for sale as Christmas gifts may be bought point-free thru January 8, OPA said recently. Because the packages were made up before these foods were rationed, and because they are often assembled in packages with such highly perishable products as cakes and cookies, it is necessary to sell them speedily to prevent waste.

**Lift Restrictions on Binder Twine**

Farmers may now use binder twine where needed in growing, harvesting or shipping agricultural products. Previously, use of binder twine was restricted to mechanical self-tying binders.

**Packed Food Products**

Exempted from price control are sales by home canners who sell less than 1,500 quarts a year of packed fruits and vegetables, OPA reported recently. OPA also announced that consumers will pay more for canned sweet potatoes, brined cherries, maraschino cherries, canned mushrooms and processed dried prunes and prune products.

**Catsup Released to Civilians**

Nearly a million cases of tomato catsup soon will be released to civilians. The catsup is being released from specific reserves held and owned by canners but set aside by them for government use.

**Batteries for Hearing Aids**

Batteries designed for use in hearing aids are being sold only by hearing aid dealers, and not in drug or general retail stores. This precaution has been taken by WPB in order to prevent their use for flashlights or other purposes.

FREE
HOW YOU CAN TEST YOUR OWN COWS FOR
MASTITIS

Here is a quick, easy way to test your cows for Mastitis. You can do it yourself right in your own barn. Test 20 cows in 20 min. with the Beebe "BTB" test. And it does not cost you a penny. Here is all you do: Ask us for the special Beebe "BTB" Test Card. We will give you FREE one test card for each cow in your herd. All you do is follow the simple directions on the card. We have Beebe "BTB" test cards in stock now. Ask for your FREE supply today. Remember, a few minutes spent in testing your cows for Mastitis may save some of your most valuable animals from slaughter.

## Buy and Use Christmas Seals

What did you do with the tuberculosis Christmas Seals which you received in the mail on Nov. 22? Did you send money immediately to the Allegany Health & Tuberculosis Association, and are you using the Seals on every piece of Christmas mail you send—or did you send your money to the association, but have forgotten to use the Seals? Or did you return the Seals without the money?

If you bought and are using the Seals you are completing a fine job. If you bought the Seals, but are not using them, you have done the first half of a fine job, but left undone the second half—reminding others to buy and use the Seals and calling attention to the vital importance of the anti-tuberculosis campaign. If you returned the Seals without buying them, you lost a real opportunity to do your part in a big, necessary, wartime job.

War, with its overwork, strain, anxiety, food shortages, overcrowded living and working conditions, broken rest, and lack of proper recreation, creates conditions which foster breakdowns with tuberculosis and its spread from the sick to the well. Consequently, the association faces a crucial year. All its activities in tuberculosis prevention and control—case-finding in schools and industry, health education and rehabilitation must be expanded to meet the emergency.

If you have not paid for your Seals, please do so at once. If you sent your Seals back, please reconsider. Seals are still available at the association's office, 44 Schuyler St., Belmont. If you bought Seals be sure to use them on every card, letter and package you mail between now and Christmas—in short, finish a fine job.

This year, above all years, the tuberculosis association cannot do without you. Buy and use Christmas Seals.

---

The best things in life are not free—you pay for them on the "easy payment" plan.

THE DAMAGE BY FIRE AND THE WATER used to extinguish the blaze in your home may be greater than the amount of your insurance, particularly if you have not allowed for today's increasing cost of replacement.

We will be pleased to check your present property insurance and suggest changes or increases which may be desired.
