### Civilians At War

Your Government needs and asks its citizens in this 166th week of the war to:

1. Employ special nurses only when you are critically ill. 2. Keep on saving your waste-

paper. Collections are lagging. but the need remains critical.

3. Conserve all possible fuel as bad weather and hard-pressed railways seriously tax coal distribution. Coal and oil help fire the guns.

4. Write overseas by V-mailfast, sure, private. V-mail saves precious cargo space. Frequet V-mail leters are profoundly welcomed.
