October Milk Price Announced

ers would be paid a uniform price of \$5.44 per hundredweight for heir October milk deliveries to the 432 pool-approved plants in the New York milkshed. The uniform price in October, 1947

It was also announced that the producer butterfat differential for October would be 5.6 cents

Statistics for the October milk pool show that production was 2,666,390 pounds, or .65 percent while the decrease in consumption was 10,955,828 pounds, or 3.7 percent. October was the 13th consecutive month in which fluid milk consumption declined. Total milk production in October was 415,218,015 rounds with 412,551,625 pounds in the same month of 1947. The production per day, per dairy, was 295 pounds, the highest for any October since
