LUMBER & COAL CO.

WELLSVILLE, N. Y.

1. BE SURE OF HEAT NEXT WINTER 2. SAYE MONEY AT LOW SUMMER PRICES

Last winter fooled us all. It was the warmest in many years. But it's dangerous to count on mild temperatures during the winter that's coming up!

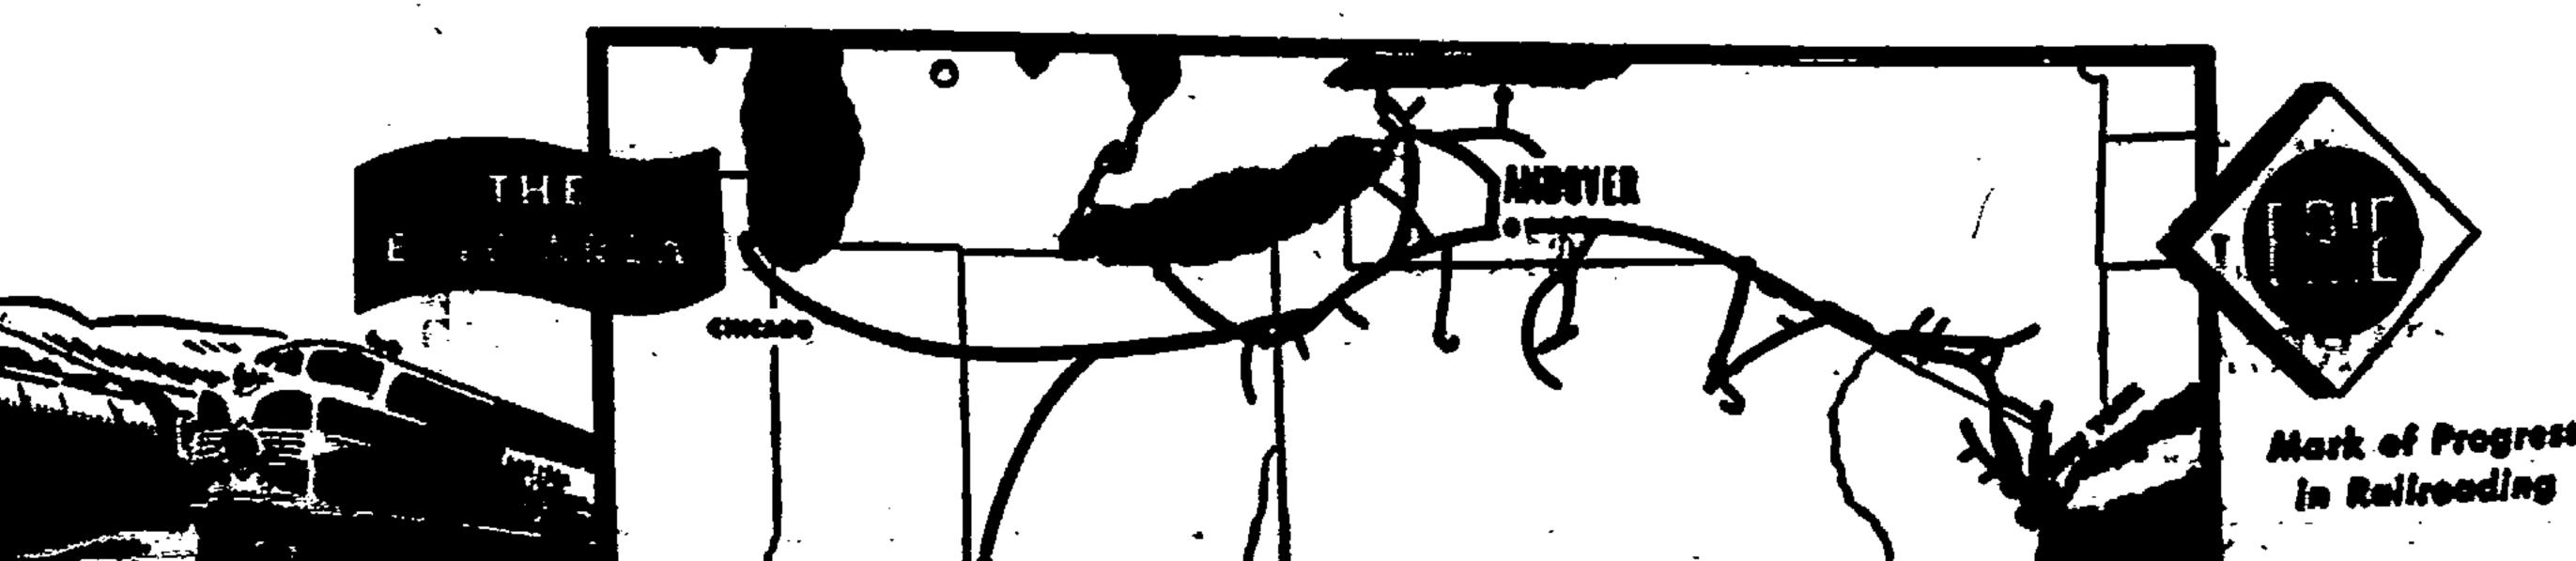

Because of last winter's freak weather you probably have some coal left in your bin. Don't let that fool you into

taking chances about the cold months ahead. Be wise, order your winter's supply sow and be sure of dependable coal heat when you want it next winter! Coal in your bin is like money in the

bank-you know you are safe! We suggest that you call your local

coal dealer right away and ask him to fill up your coal bin. That's the one way to be sure that you and your family will be warm next winter!
