C. H. Watson Writes on Evils Of Air Rifle Use

Dear Editor Backus: There has been a great deal of interest shown in the article published in the Andover News under date of February 22, 1951, relative to the use of air guns by uveniles. Herewith I am sub mitting a letter in which I state some facts, and I trust that you will find it worthy of publication in order that good parents may be on guard against trouble.

On February 28 one of our citizens turned in to our police officer a dead bird bearing Government band No. 135813. Officer Rogers brought it to me for identification and any information I might have concerning saw at once that it was a male downy woodpecker and the band is one which I had put on the bird July 9, 1949. These bandings are sponsored by the United States Government, together with the co-operation of the Canadian government for the purpose (Andover for the past 42 years, Can you imagine the shock I reclock Saturday morning, March ceived when, upon close examin ation. I found that the bird had been shot through the head with January 29, 1861 at Trapping a pellet of shot from an air gun! Be it known that there are very rigid Federal laws against killing of song and insect-eating

ing here where he operated his birds. However, I believe the married September 21, 1886 to from the above mentioned article which appeared in the Andover Surviving are three sons, John Eu- der 16 vears of age any gun, pi of Wellsville, Mrs. Kenneth Black- of the Penal Law of the State man of Hinsdale, Miss Alice No- New York. It is well known that there are several boys in town who are using BB-guns. Reports have been made of cattle having been shot pastures. One case was reported of a boy who used his own dog as a target. As a result, the dog went on three legs for some days. The majority of our boys do not tolerate such brutality and the few who do follow such practices will soon find themselves
