points; Lois Ruger is second with 58; Charity Howland, 35; Mar-Clark, 31; Mildred Briggs, 25; Billie Ryan, 22; Mary Fowler, 26; and Sandra Bostwick 36.

Points are given according to the quality and the number of articles handed in on time. The highest number of points given on an article is six and the articles receiving the highest scores are those with acceptable leads, headlines, spelling, and writing. Interview articles usually merit more credit than feature stories. - ACS

-----ACS-----Acquires Hobby

By Mary Jane Sackett One of my classmates, Rogers Theetge, has a hobby in radio which he learns about by attendevery Monday night and receiving help from Phillip Hackett, who operates his own ham radio

Rogers, a sophomore, is 15 and lives on Grove Street. When asked why he was interested in this hobby he explained that he liked to build things and he built 2 or 3 receivers which he would like to use in operating his own radio station.

Roger plans to obtain his ham and receive 13 words per minute and pass a written examination

Rogers explains that his hobby Mary Brown is highest with 58 cost from twenty-five to fifty dollars and he spends time on it that he can. Rogers has carried on this hobby for a half year in a small room located in the back of his home. Pat Crandall also has a similar

As I was walking down the halls of A. C. S. I overheard a Dental Hygienist group of students discussing the problem of whether of not the basketball players should home on the spectators bus after a game. I asked them to tell me what their opinion was.

James Connor said, "Yes after the game but not before because they need their rest." Thelma Mickle said, should but it all depends on who the players are."

The conversation with these students led me to believe that almost everyone thinks the basketball players should ride home on the spectators' bus. What is your opinion?

Completes Work

Once again the dental hygienist has completed the work of cleaning teeth in the Andover Central School for another year. Miss Kathleen Gates, this year's dental hygienist, reported the cleaning of 538 sets of teeth.

Miss Gates said that the teeth of 446 pupils needed attention, and only 92 sets of teeth were found in good condition. 242 students are now receiving attention or soon will. Out of the grades 1, 3 and 6 received

sodium fluoride treatment. And now that her work is completed, Miss Gates wishes to thank everyone for taking suchinterest and for responding so
