# For Children

A Community Service Issued by Children's Hospital of Buffalo, N. Y.

quires a doctor. To help your children toward the family doctor. child's.

All children are apt to be suspicious of a stranger who tries to care for them in time of illness. You can help your child to accept the doctor by telling him some of the things the doctor will do. By your calm attitude, even though you may be worried, you reassure the child. Children are quick to sense their parents' anxiety and this makes them afraid.

You can start by explaining that the doctor is a family friend who likes boys and girls and well. Tell the child about some n.m. conducting a time of sings- of the routine medical procedures, tor's stethoscope by which he lis- ed on home-grown gains etc. tens to breathing, by calling it a The agent said that all poultryeyes, ears, nose and throat can be to attend this meeting. compared to larger flashlights Morning worship at 11:00 a.m. which the child has perhaps seen

> might upset the child; they may not be necessary. If the doctor must make some examination which may bother the child, such as pricking his finger for a blood sample, it's best to let doctor explain it to the child after they have established a friendly relationship. NEVER THREATEN a child by saying "if you aren't good I'll take you to the doctor."
