**PHONE 1836** Get the Best Buys in

Any way you look at it... Erie's doing a better job for you! Our job is to serve you, the citizens, the industries and communities

along Erie's right of way with the best in transportation. Let's look at these four achievements on the board as one way of learning how well we do the job.

The fact that 90 per cent of all operations are handled by diesel means more efficient service and better on-time performance. In 1951 the Erie achieved the highest operational efficiency in its

history. A further advance has been made in freight train performance which means that we have moved more tons of freight faster than ever before.

In addition to all this, the Erie has provided steady jobs for 22,404 employees, many of them your home town neighbors, and so has helped local prosperity in every community on the Erie system. The fact that we pay \$50,000 a day in federal, state and local taxes shows that we are sharing the load in maintaining the government, and by paying state and local taxes we are contributing to community welfare. We hope to better this record each year in providing safe, depend-

able transportation and all the other good things that go with

a well-managed, efficiently-operated railroad. Erie Railroad BUFFALO L BOCHESTER ... SERVING THE HEART OF INDUSTRIAL AMERICA Listen to "The Railroad Hour" every Monday night . Standard Time. I' . . . . . . . . . . . . . *I*• • •
