person can maintain general and keep body defenses making good health habbalanced

Another way to guard against

TB is, of course, to avoid close

contact with those who have the disease. But this isn't easy because not everyone who has TB is in a hospital. Many people who have TB in an active form do not realize themselves that they are ill because TB has no obvious symptoms when it srikes first. So we can never be certain when we are, or have been o contact with tuberculosis. But there is a way we can find out and this means the formahealth another sound Everyone should see his doctor at least once a year for a thorough physical checkup, including a chest X-ray. If he does this, a person can be certain he is in good health, or, if serious illness is found, that it detected early. The chest X-ray can detect tubercu--losis in its early stages, even be-fore apparent symptoms appear, and the earlier tuberculosis is found, the easier it is to cure.

Spicer Cow Completes Test Period

Brattleboro, Vt., April 18th—With 560 pounds of butterfat and 15,546 pounds of milk to her credit, Countess Spicer Pontiac a registered Holstein-Friesian cow owned by R. E. Spicer of Andover, has completed a 365 day production test in official Herd Improvement Regis-

She was milked twice daily and was 8 years and 6 months of age when she began her testing

The official opening of the Mountain Laurel season in Pennsylvania's Grand Canyon, June 19-20 marks the 11th anniversary of these celebrations held in Wellsboro, Pa.
