Father's Day is Sunday

This coming Sunday millions of sons and daughters are going to pause and commemorate the memory of their father, living or dead. Whether he will be the proud recipient of a gift of the new fishing tackle he's yearned for just a card saying "Happy Father's Day" it will be a bright day with the thoughts that go along

Here is a christian and demoeconomy, the father still looked up to as the head of the family. It is our father, our Dad, who has fed and clothed us from the first day of our young life. By Gay Rogers Virginia Bailard, Supervisor -Counseling and Psychological Services, in Long Beach, Calif. and Ruth Strong, Professor of Education, at Columba University have written a book called "Ways"

After reviewing many different cases they have pointed out in this book that there are 12 important factors in becoming the popular person which everyone envies.

First of all to rate yourself as a person. Take a good look at yourself, and figure out what you are really like. Write down your good and bad points. Improve on your shortcomings. While doing this never become discouraged. You can be likeable. Some may think this impossible but surely you realize that some have this Hoyt at the Mission Church Tuespower. So, why can't you? First .. of all try to acquire the friendly feeling. When you go through the halls say "hi" to your enemy. However, don't overdo this. Some people are to eager to be friendly. -Next learn to be tactful. Think about what you say before you say it. This could be conquered

about people. In this way you will never say anything harmful. Third, make your life successful and learn to be self-reliant. When you are tempted to ask for help, pause to consider whether you would be able to do it by yourself. Make a list of several things you are afraid to try doing alone. Decide to do one thing on the list for which you have the most ability. The final trait which contributes toward making you a successful and respected person is that of working at a job until you

Fifth you should learn to get along with others. If you have a teacher whom you dislike make the best of it. If you don't it spoils your class period as well as hers. Some of the values of getting along are (1) You will be happier, (2) You will have more satisfactions, (3) You will be accepted and (4) You can enjoy

your homelife. Some people have the ability to always say the right thing at the right time. If you would like to acquire this character trait Just follow these rules. It is important to keep still (1) when a remark may embarrass another, (2) when you are tempted to repeat something you have been told in confidence, (3) when someone noys you without meaning to so and (4) when friends want
