THE ANDOVER NEWS

are LIFE LINES!

Throw a line to a drowning person and with all his remaining strength he reaches for it—to save his life. Throw one or two solid lines down the length of a highway, and too many drivers ignore it in their hapless hurry to get somewhere fast.

But those, too, are life lines. Road markings at danger points are put there to save lives. Passing on the wrong side of the road, violating right-of-way, cutting in, passing on curves or on the right, failing to signal a turn or intention to pass and other reckless acts are utter disregard for life. Traffic gamblers guilty of these violations cost the lives of 11,000 persons and injured more than half a million others in 1950 -and the toll increased last year.

Have you ever been guilty of crossing a traffic line when it wasn't necessary? Have you taken the right-of-way when it wasn't yours to take? How often have you seen a squeeze coming and breathed a sigh of relief when Lady Luck gave you one more chance?

The life line in the palm of your hand doesn't contemplate violent death on the highway. Your future may be written—or written off—in the way you drive. You—and only you—can make your driving life line longer.

Marketing Loss Still Heavy in Trucking Cattle In New York State, most dairy

cows, bulls, and calves move to auction markets and from farm to farm by motor truck. Truckportant business, says Prof. C. G. Bradt of Cornell.

Livestock losses from bruising, crippling and death between farm and killing floors are estimated at \$50,000,000 annually in the U.S. Of this vast total, New York dairymen absorb a sizeable share, says Bradt. Eventually, nearly all of their 1,400,000 dairy cows in the stables and pastures today will take their last ride to mar-

How to reduce livestock shipping losses has been for many years the concern of livestock Thursday, 7:30 p.m. Choir re- producers and dealers, the railroads, trucking companies, etc. Hay Balers — New Holland and Livestock Conservation, Inc. offers Massey Harris. some pointers to truckmen handling farm animals for reducing
