rice of \$5.00 per hundredweight (46.5 quarts) will be paid to dairy farmers for their October deliveries to pool-approved plants in the six-state New York milk- 44 shed, according to a forecast re-Market Administrator of the New York metropolitan milk marketing area.

He also estimated that the producer butterfat differential for October would be 6.2 cents for each tenth of a pound of fat above or below the 3.5 percent standard.

Dr. Blanford based his forecast on a production estimate of 526 pounds for the month. This would mean an average daily output of 344 pounds by each of the estimated 49,300 producers in
