Hunting Can Be Safer

New York State's wealth of wildlife is hunted by 900,000 foice annually, and of these about 20 are killed and 95 injured each year. But, says Prof. W. F. Clark of Cornell's conservation department, careful study shows most of these accidents can be avoided.

How do these accidents happen? Surely the fellow with a gun must Elmer Greene Saturday and Sun- realize he has a lethal weapon. of Mrs. J. C. Bassett for the past November 15. His wife, a brother to lean on a gun with the barre!

under his stomach. Yes, he could was unseen by the shooter me Here is what the National Rifle figures, Clark point Association found after studying that carelessness and thought. the 8.2 accidents reported during ness are the real cances of his 1950: There were 173 fatalities; ing accidents, and he sugge 304 hunters were within 10 yards of the gun that injured them; and accidents caused by the victims themselves totaled 229. Of 168 accidents to deer hunters, 55 were

IM SMILEY OF THE ERIE!" Good neighbor policy

Any way you look at it, your home-town industries mean a lot to you and your town.

You don't have to be an economist to know that they are tied up with the well-being of your community. They create employment and payrolls, pay taxes and as they prosper so does your town. The Erie Railroad constantly strives to be one of your good neigh-

astern Standard Time.

Serving the Heart of Industrial America

and Chicago, your own interest depends on how well the railroad serves your community. The food you eat, the clothes you wear and so much of what keeps life going is brought to you by railroad. Then there are the raw materials that keep your industries operating and the finished goods that are transported to market. Add it all up and you will agree that your railroad plays an important

bors, and home-town partner. Although the railroad links New York part in your life-serving you dependably 24 hours a day every day!
