How Responsible is Responsible?

The word, responsible, is thrown around a great deal in today's World. You are responsible for your actions, speech and daily work. You are responsible for limiting phone conversations, and getting to school on time.

Thus, we ask, "How responsible is responsible?" Well, to begin with you are responsible to yourself and your parents. In this case, if you know what's good for you, you'd better live up to an angelic image - (or come reasonably close to it?).

Last, but certainly not least, you have a time responsibility. You are expected to maintain a certain schedule.

Now, isn't that a discovery! Fifteen minute calls also solve the problem of getting rid of someone you just don't care to converse with right then - You have a time limit to keep!

Well then, we come to the conclusion that responsibility isn't really responsibility at all! It's merely a whole lot of common sense, a layer of common courtesy and a pinch of respect.
