

RIGHT TO WORK — OR NOT!

An Editorial

AS A RESULT OF THE RECENT DISASTROUS TRANSIT STRIKE IN NEW YORK CITY — Here is something for all voters to think about and then let their Senators and Congressmen know how they feel about the "Right To Work" Law!

According to the \$70,000-a-year AFL-CIO president, no importance should be attached to either (1) the right of the individual citizen to earn a livelihood without paying tribute to labor union czars or (2) the right of the people and their state legislatures to outlaw compulsory unionism by adopting "Right To Work" laws.

George Meany argued recently in a letter to all editors that these aforementioned rights are inferior to the "right" of the union hierarchy to force the U. S. Senate to repeal Section 14(b) of the Taft-Hartley Act and thereby legalize compulsory unionism throughout the country.

His demand for an immediate Senate vote on his radical and self-serving repeal bill cannot obscure the fact that just three months ago the Senate voted twice on this issue in response to the agitation of labor union professionals.

On October 8 the senators voted 94-0 against Majority Leader Mansfield's tabling motion. On October 11 an ill-fated attempt to choke off debate was supported by the votes of only 45 of 92 senators who were present and voting. The latter vote was especially galling to Mr. Meany because it belied his earlier published statements to the effect that a Senate majority wished to end debate.

The AFL-CIO president's seeming preoccupation with the "right to vote" principle is rank hypocrisy. He did not champion the "right to vote" when his underlings waged a two-year court battle in an effort to block a vote of the people of Oklahoma on a Right To Work proposal. Oklahoma is only one of more than 20 states in which Mr. Meany's subordinates have endeavored to stifle the "right to vote" by resorting to obstructionism, harassment, physical attacks and intimidation.

Mr. Meany is now demanding that Congress override the votes of the people who adopted Right To Work laws by state referenda.

He and his cohorts are trying to kill Section 14(b) because its repeal would automatically impose union membership on 250,000 working men and women who are shielded from compulsory unionism by 19 state Right To Work laws. The capture of 250,000 involuntary members would produce a minimum of \$15 million annually for labor union coffers.

The current caterwauling of Mr. Meany reminds us of the sage observation by Abe Martin, the Hoosier philosopher:

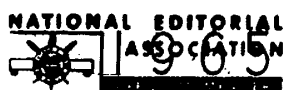

"When a feller says, 'It hain't th' money but the principle o' th' thing' — its' th' money."

THE FREEDOM OF THE PRESS IS BASIC TO ALL YOUR AMERICAN FREEDOMS! Only as your Newspaper is free to print the facts, can you be free to know them. Only as you know the facts, can you act wisely in the best interests of your Community, as you see them. In America, there is plenty of room for opinions. THERE IS NO ROOM FOR RESTRICTIONS ON THE PEOPLE'S RIGHT TO KNOW THE TRUTH!

Daytona Beach, Fla. — The North American Racing Team of New York City plans to have Pedro Rodriguez and Mario Andretti as co-drivers in his No. 1 Ferrari entry in the Daytona 24 Hour Continental on Saturday and Sunday, Feb. 5 - 6.

"Rodriguez has signed and is ready to go," said Luigi Chinetti, head of the NART team. "I have talked with Andretti, and the youngster is anxious to drive in America's most important race." Rodriguez, the brilliant Mexican ace, has won two Continentals in Ferraris, when the race was run at a shorter distance. In the 24-hour race he will need a partner (no man is allowed to drive more than 4 hours straight), and Andretti would provide the ideal co-driver. Andretti, in his first try at Indianapolis, finished third in 1965. He is at home in any type of car.

"Such a team would be most formidable," Chinetti said. "They combine Latin daring with American sense. I have for them a Ferrari 365 PE. It is swift, and it will last."

The Continental starts at 3:00 p. m. Saturday, and ends at 3:00 p. m. Sunday.

This international race opens the annual 1966 Daytona "Speed Weeks" which closes on Sunday, February 27, with the eighth running of the late model stock car classic — the Daytona 500. This 200-lapper round the 2.5 mile trioval is the world's fastest 500 mile race and drivers already entered include Richard Petty, A. J. Foyt, Fred Lorenzen, Buddy Baker, and Bobby Allison. Gordon Johncock, one of the USAC's top drivers, and fifth place finisher in this year's Indy 500, is expected to drive a Dodge in the race.

The Permatex 300 for modified-sportsman cars on Saturday, Feb. 26, will draw a full field of the country's hottest souped-up cars. The first to enter this rich event was Bobby Allison, three times winner of the NASCAR National modified championship.

Entries are pouring in for the annual ARCA (Automobile Racing Club of America) 250-miler, scheduled for Feb. 20, and the field will include such veteran aces as Jack Bowsher, ARCA champion, and Iggy Katona, winner of the 1965 event.

More than \$265,000 in cash awards (exclusive of lap money) will be distributed during "Speed Weeks."
