Direct Distance Dialing For Rexville Telephone Subscribers

Commencing February 15, 1966 Rexville subscribers of the Iroquois Telephone Corp., will be able to dial direct to any of more than 94 million telephones in the U.S.A. and Canada. It is interesting to note that U.S. telephone companies are installing 1800 telephone lines every working hour. Long distance dialing by subscribers directly to other cities will greatly speed service.

Additional automatic telephone switching equipment is presently being installed in the central office building at Greenwood. Direct inward dialing to the Rexville exchange has been available since June 1965.
