To the Taxpayers of Andover:

Last Week I Stated That "Too Many Questions Have Been Left Unanswered in the Last 2 Years." Below are some of the Questions I feel should be Answered!

1. Why was it necessary to raise the Village Tax Rate \$2.00 last year when it was generally known that State Aid to Villages was being raised to the extent that it may now be possible to lower taxes to the original point or even lower?
2. Why are Village maintained sidewalks not cleaned when individuals are responsible for keeping their walks shoveled? (Example: Walk adjacent to Village Parking Lot).
3. What has the Village Board done as official action to secure a new doctor upon Dr. Scott's retirement?
4. Why must there be continued breakdown of Village Equipment? Is it being maintained properly?
5. Why are pay scales and fringe benefits changed after budgeted amounts have been approved?
6. What steps are being considered to correct the curbing improperly installed on Rochambeau Avenue?
7. What has been done to remove "mud" from our water supply after rates were raised?

It is not my contention to solve all of these issues. I do feel, however, the public should be given the facts on what is done about each.
