News That's Print To Fit

FLASH! FLASH! FFA Boys change scene in Island from Winter to Summer! Yep, we lost a golden opportunity last week when we didn't have room in this column for a few items that were on our mind.

Here we were all ready to ask if the Christmas Tree in the "Island" was of the "perennial" type — when Lo and Behold — Monday morning we observed Frank taking it down and hauling it away on the last pick-up day of the annual "Clean-Up, Fix-Up" campaign.

Then yesterday the FFA Boys, under Frank Russell's supervision, performed their annual "post-planting" stunt and have the flower bed all fixed up for Memorial Day. They also fixed up the planters in front of the business places along Main Street so that things are looking better. Now what is required to remove the "dandy-hens" and grass that is growing up between the cracks in the new sidewalks up and down Main St.?

Also, we have been inquiring regularly when we are going to have a Village Police Force — and all we have been getting is evasive answers and hearing rumors.

Then in Saturday's Evening Tribune we noticed a little item of interest under the headline: "Table Plans for Purchase of Fire Truck, Ambulance". About 2/3 of the way through the news item it read: The Board of Public Safety yesterday also: (par. 3) — accepted the resignation of John Gemmill as a city fireman and granted a 15-day leave of absence to Police Officer Howard E. Plank, as chief of police in Andover.

Is this fact — or fiction? And if true "how-cum" we haven't been notified of the fact? We, as well as many interested citizens, are certainly interested since we hope it will mean putting a stop to some of the goings on lately — such as drag racing down Main St., during the wee hours of Sunday morning, as well as finding broken glass in the Streets.

We noticed that most of the holes have been patched up on the back road (Rochambeau Ave., Extension) but were wondering if Charley is having a feud with Frank — or something.

The holes were patched right up to the Village line — which is commendable — but there were several pot-holes just inside the line that wouldn't have taken more than a wheelbarrow full of stuffing, and the roller was right there to roll it in.

Seems like a deal could have been made to fill those holes in for patching up the bridge on North Main Street. 10-4?

We noticed the mistake in the headline that we quoted in reference to the Andover Police Chief, but since we were quoting directly, we had to print it the way we read it.

This makes us feel a little better that larger papers than we — have trouble with their hand set capital E's and F's. Perhaps some of you noticed that we had the same problem when we printed the "kicker" for the Minstrel Show and it read "Don't Eorget the — etc."

Maybe we could find a spray to take care of those dratted "type lice".

We noticed that Harry was wielding a wicked scythe over in front of the Town Hall this afternoon and was getting his crop of "dandy-lions" all harvested — although whether it was for the purpose of setting "the example" — or for some other reason, we don't know.

However, it would seem as if "Duff" is going to have to follow the example set and get the hay crop mowed along the State Highway inside the Village limits — if things are going to be real ship-shape for Memorial Day.

Don't drive after drinking!
