Local Firemen Called Out Thursday To Kindel Fire

Andover Firemen were called out around 5 p. m., last Thursday afternoon to fight a serious fire that caused extensive damage to the Kindel home on Lynch Road (original Martin J. Lynch home). According to Fire Chief Merle Fox, a large farm pond which was a little over a 100 feet from the house, furnished an ample supply of water to fight the fire. The fire which was apparently started from a chimney at one end of the house, took around 4 hours to completely extinguish and caused a great deal of damage.

Miss Ruby Jordan, a surgical patient in the Jones Memorial Hospital, returned to her home Monday. Leonard Snyder was admitted to the Jones Memorial Hospital, Friday as a medical patient. Mrs. Richard Heselton was admitted to the Jones Memorial Hospital as a surgical patient and returned to her home Tuesday night. Don't Drive After Drinking!

News That's Print To Fit

Now that the weather has warmed so nice for the last week, looks as if the only thing we can complain about is that we need rain—only please don't let the rains come down over the week-end. To-night, to-morrow morning or Monday will be fine!

Speaking of fine reminds us the fad of flying glass, car windows or windshields seems to be catching on around "ye olde home, town". And Saturday night's seem to be fast becoming the style. However, as we understand it, the locale has been moved from "in town" to outside the Village limits. Here again, according to reports, the "Troops" were called in to act as a deterrent force or maybe as an umpire, and by the next day the glow was gone or else rose-colored glasses were donned so all was forgiven.

Of course we don't know how long this type of action can go on as it looks as if sooner or later the Law, Justices or even a Judge, could get tired of being hauled out of bed in the wee hours of the morning and might decide to try a case and pass judgement right then and there. In a theoretical case like that — "the forgive and forget" theme would be like "locking the barn after the horse was stolen". — 10-4?

We see that the Police Car has been in evidence lately but haven't had any official announcement as to whether we have a duly appointed Police Chief, a regular Police Officer, a Night Watchman — or what.

However it doesn't seem to have made much difference, in the deterrent line of way, as far as the "Main St. Drag Strip" is concerned. Every morning that we go down to the "News" Office, we expect to see strips marked off in lanes with a starting line and maybe even a finish line.

Driving fast when one is late for an important appointment is some what understandable to most of us — but to see how much burned rubber can be left on the road — just doesn't seem to make sense or prove anything.

Much along the same line — with High School Graduation looming up in the near offing — we wonder how many of the Students that graduate, will be able to fulfill their ambitions or promises — or even be alive and healthy the day after graduation?

It seems that death and tragedy seems to haunt the highway on graduation night every year calls for a big celebration — over The graduates and their parents seem to think that the occasion night party — or the like. And of course the young people need the family car to attend these "must parties".

Having a party and attending one is fine — as long as the driver is cautious, stays sober, drive carefully — and doesn't listen to the agitators that want to see how fast "the old bus will go".

Here in Andover let's all help to see to it that a "Graduation Auto Tragedy" doesn't make headlines in the local Newspapers!

Somehow or other in the process of changing shirts to adjust for the varying temperature during the recent warm days, we overlooked an item that certainly should be of interest to all you fishermen.

In a lot of "fish stories", the size of a fish depends on the length of the anglers arms when it is told.

However, in this case, we can vouch for the size of the fish since we saw it with our own two eyes when Roscoe Tidd returned from a fishing expedition at Silver Lake.

The fish that Roscoe had the good fortune and skill in landing was a 34 inch Northern Pike that tipped the scales at 10 lbs. He also told us that he caught it on an "Eagle-Claw" No. 4 snell hook.

In addition to this "whopper", he also had a nice mess of good-sized Bullheads that were still "flapping".
