How much do you value your citizenship? Almost all of us were lucky enough to be born natural citizens of the United States...

When a person from another country enters the United States he has to wait for a long time to become a citizen. He must be interviewed, questioned and taught. He must also pass a tough examination...

It is rather discouraging to find out how little many natural born citizens know about their own country. Maybe we should all be made to earn our citizenship. It would most certainly make us appreciate it.

Library Council News

This year in Library Council there are twenty-two members composed of sophomores, juniors and seniors. The officers are: Rita Dixon - President, Mary Howland - Vice-President, Camilla Wallace - Treasurer, Noreen Thorp - Secretary, Cheryl Petlon - Student Council Representative.

There are many duties for those in this organization. They work at the desk, mend books, take care of books, take inventory, dust, and make out overdue slips. Members of the Library Council conduct the Annual Book Fair at Andover Central School.

We all are very grateful to Mrs. Conde and the Library Council members for the time they spend assisting Mrs. Conde in the Library.

Andover Student Receives Letter Of Commendation

A letter of Commendation honoring his high performance on the 1966 National Merit Scholarship Qualifying Test (NMSQT) has been awarded to Dale Angood, 17 year old Senior at Andover Central School, Principal James H. Kessler has announced.

Dale is the son of Mr. and Mrs. Robert Angood of RD 3, Wellsville, N. Y.

He is among 82,000 students in the United States who scored in the upper two percent of those who will graduate from high school in 1967. The Commended students rank just below the 14,000 Semifinalists announced earlier this month by the National Merit Scholarship Corporation (NMSC).

John M. Stalnaker, president of NMSC, said: "The outstanding record made by these students in a national competition deserves public recognition. Their signif-

icant academic attainment gives promise of continued success in college.

"The Commended students should be encouraged to pursue their education as their intellectual talent represents an important and much needed natural resource. Our nation will benefit from their continuing educational development."

Only the highest-scoring students in each state, the Semifinalists, remain eligible to be considered for Merit Scholarships. Although students receiving Letters of Commendation advance no further in the Merit Program, their names are reported to other scholarship-granting agencies and to the colleges they named as their first and second choices at the time they took the NMSQT. These colleges also receive reports of home addresses, test scores, anticipated college majors and career intentions of the Commended students. NMSC encourages these students to make every effort to continue their education.

Little Claude's mother had reluctantly allowed her precious child to attend public school. She gave the teacher a long list of instructions. "My Claude is so sensitive," she explained. "Don't ever punish him. Just slap the boy next to him. That will frighten Claude."
