What Are Friends For?
Many people take their friends for granted. They feel that friends are a convenience. However, people are not just conveniences. For granted. They feel that friends at random.
Your friends will have their faults, but without them they wouldn't be human. It must be remembered that friendship is a two-way thing. Your friends must also accept you for what you are. If two people can learn to accept each other's bad points along with the good ones, if they truly respect each other's opinions and beliefs, and if they remain loyal during times of stress, they have a true friendship. In this day and age a true friendship is priceless.
