Do you know what Hallowe'en really means? The name Hallowe'en means "holy evening" because it falls on the day before All-Saints Day. This day is usually celebrated with special games and dress-up parties.

However, there are several superstitions and symbols connected with it. The origin of jack-o-lanterns comes from an old Irish tale. They say that a man called Jack wasn't able to enter heaven due to his being a miser. Like wise he couldn't enter hell because he had played practical jokes on the devil. Therefore he was forced to walk the earth with a lantern until Judgment Day.

The ancient Druids of Gaul and Britain believed that ghosts and spirits, fairies and witches came out to harm people on Hallowe'en. Therefore, Hallowe'en is really a combination of pagan customs and a Christian feast day, although the former is more widely practiced.

 UNICEF

By Children For Children

Each Hallowe'en the grade children all across the United States go trick or treating for children of other lands. By collecting money the children of America provide milk, medicine

and other necessities for these underprivileged children of poverty in foreign lands. Through the time, generosity and kindness of the children and the towns people, these little children are brought hope for a future free of hunger and disease.

This children's organization is made possible by the little children who care. Please be generous when the children of Andover come to your door and say "Trick or Treat for UNICEF".
