On periodicals and pills

One of our pharmacist friends claims he provides more reading material than a library. We often feel the same... and we're glad to do it. Our newstand is handy because our main job of providing medication keeps us open longer than most stores. It's one of the extra services you find in pharmacies. When you want late-night reading, think of us. But keep in mind, we're always professional men working with your physician to provide medication when you need it.
