Editorial

Half a year gone already?!! Well now, let's collect a few escaping thoughts and force ourselves to face the coming semester. It really wasn't that bad. Not really; was it? So what if that report card does show a few patriotic colors; it's not too late to remedy the situation.

There are twenty weeks of classes left in another semester — twenty weeks in which you can better your marks, save them or let them get worse. No one is responsible for the outcome but yourself. Yes, maybe you will have to cut down on a few extra activities, but it will be worth it in the long run.

You are not only determining the outcome of your school year, but perhaps your whole life as well.

Think about it, for now is the time to give yourself a fresh start, if you really need to be concerned.

Senior Interview

Mr. and Mrs. Francis Gavin are the proud parents of a daughter, Connie Lorraine Lewis, born January 21, 1950, who has left quite a mark on ACS.

Through her many activities such as Yearbook Staff, basketball chorus, F.H.A., Red Cross, National Honor Society, Library Council, Future Nurses, Camera Club, Hi Herald, cheerleading, Junior and Senior plays and G.A.A., Connie has displayed the numerous leadership qualities that have brought her many offices and the admiration of her classmates. She also has the distinction of having placed first in the Oratorical Contest sponsored by the American Legion and of having represented Andover in the County Contest.

Among her favorites we note food, lobster, rain, color, pink, book "Tale of Two Cities", movie "Gone With the Wind", saying "Oh my goodness!", philosophy, "Live for today and worry about tomorrow when it gets here", song "Twelfth of Never", subject Psychology, Education, and her pet peeve is the lack of interest in the girls' team sport.

No 1 Year in Grad. at the State University of New York at New Paltz in the Liberal Arts program. To her, we send along our best wishes and we know she will succeed.

Red Cross News

Wednesday, January 25, three students attended a Red Cross meeting in Wellsville at the home of Mrs. Ruth Roos. The students attending from Andover were Jeanne Atwell, Camilla Wallace and Gail Bronson. There were also representatives present from Alfred Almond Central School and Wellsville Junior High.

The purpose of the meeting was to help organize a county wide council for the Red Cross Youth. The next meeting is tentatively scheduled for Wednesday, February 15.

Cub News

Last Monday the Cub Basketball season got underway with the Royals beating the Lakers by a score of 23 to 13. Jim Davis was high scorer for the Royals with 12 points, and for the Lakers it was James MacMichael with 11.

In the second game, the Warriors stunned the Celtics, defeating them by a score of 38 - 8. The high scorer for the Warriors was Steve Tomlin with 19 points. For the Celtics it was Donald Sisson scoring 4 points.

Report Cards

Report Cards will be issued to the students on Wednesday, February 1st.

F.H.A.

Last Saturday, January 21, the F.H.A. had a snow party at Strouse's Cabin. The party lasted from 4 until 9. Among the activities were sled riding, snowball fights, games and records to be enjoyed by all. Everyone who came had a wonderful time.

Sign Up Now For 1967 Feed Grain Program

In the rush of starting off a new calendar year, farmers should not forget the signup dates for the 1967 feed grain program, cautioned Stephen Clarke, of Independence, chairman of the Allegany County Agricultural Stabilization and Conservation County Committee.

The six-week signup period begins Monday and ends March 3. The 1967 voluntary program is similar to the program for 1966, although it has been strengthened in some respect. The Chairman listed these changes:

The price support rate loan rate has been increased five cents; from \$1.18 to \$1.23 per bushel in New York State.

"These changes will mean an average increase of about five percent in price support for 1967 participants. They should provide a higher floor price for the market," according to USDA program forecasters," Clarke said.

Clarke also outlined some of the benefits that are continued in the 1967 program from preceding voluntary feed grain programs:

There will be advance payments. If a farmer wants to take it he may receive one-half of his total payment at the time of signup. This provision will be of particular interest to farmers who earn only a price-support payment in 1967.

Small farms with feed grain bases of 25 acres or less may divert more than the minimum of 20 percent on up to as much as the entire base. They will be eligible for payment on all of such diversion.

Clarke said the need to expand feed grain production is indicated by the reduced carryover this year.

Motorcycle Guide Now Available

Motor Vehicle Commissioner Vincent B. Tofany has announced that a new motorcycle guide is now being distributed to Motor Vehicle District Offices and County Clerk offices throughout the State.

The guide, "Motorcycles and Motorcyclists," is to provide information to the estimated 67,000 owners of motorcycles in New York State, some of whom still may not be sure how the laws affect them.

The brochure summarizes the rules and regulations as well as safety tips, that apply to the motorcycle and the motorcycle riders. Free copies will be made available in a few days.

SKI TIPS

#1 WALKING

By Ace Manley
Director, Big Bromley Ski School

Walking is one of those fundamental movements that every beginner learns as he gets acquainted with those funny things on his feet that are called skis.

The most important thing for the beginner to remember in this exercise is that he is on skis, not in street shoes. Even though the maneuver consists of short rhythmical steps, it is not the same as regular walking.

The main difference is that the ski is not lifted off the snow. The ski should slide forward, always with the tip and the tail of the ski on the snow.

Each "step" is accompanied by a forward swing of the pole and the arm opposite the forward-moving leg. For example, as the left ski moves forward, the right arm is extended forward. The pole is placed in the snow near the boot, which puts the skier in a position to slide the opposite ski forward and gives balance on either side.

With each movement, the weight goes from the stationary ski to the advancing ski.

This exercise should be performed on perfectly flat ground with nothing to obstruct the skier.

Next time: "Sidestep or Climbing Steps."

SKI TIPS

#2 SIDESTEP OR CLIMBING STEPS

By Ace Manley
Director, Big Bromley Ski School

The sidestep is the first climbing step that a beginning skier normally learns.

The fundamental principle in sidestepping is to keep the skis absolutely horizontal to the slope, by doing this, the skier will not slide forward or backward.

To insure an easy transfer of weight, each step is small. The uphill ski, which always moves up first, is lifted from the snow no more than six inches and placed approximately a foot up the hill from its original position.

The uphill pole accompanies the ski and is simultaneously placed in the snow near the boot or slightly in front of it.

The downhill ski is then lifted and brought parallel to the uphill ski.

In sidestepping, there is a natural tendency for the skis to slide down the hill sideways. To prevent this, it is important to keep the knees flexed slightly forward from the ankle and toward the hill.

In actuality, the skier tries to concentrate his step or weight on the uphill edge of the ski. With this edge "dug-in," the ski will not slide back downhill.
